

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

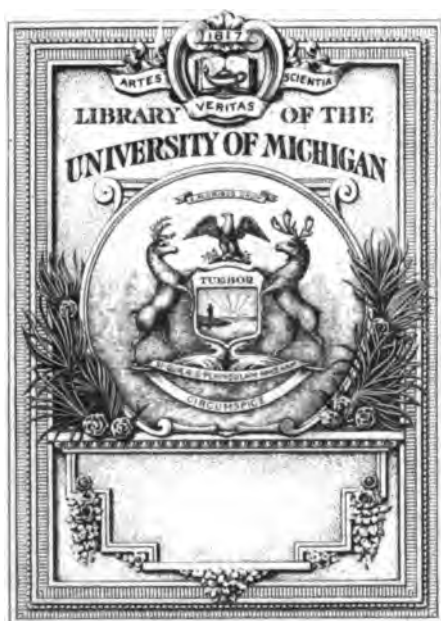

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

The Clerk appointed Messrs. McAteer, Barrett, David Young, Tattersall as a committee to escort the Speaker to the bar of the House, where he took and subscribed to the oath of office.

The Speaker assumed the chair and addressed the Assembly as follows:

Fellow Members of the One Hundred and Forty-fourth Legislature:

In accepting the honor which you, my fellow members, have conferred upon me so generously, it would be needless for me to say that I am profoundly grateful for the honor thus bestowed, and at the same time do I fully realize a grave responsibility rests upon me, or upon any man unto whose guidance and keeping is given the deliberations of this House of Assembly.

Fully knowing myself, as do you, all of my fellow members, that my selection is due to the action of the majority, I would be ungrateful and thoughtless if I did not appreciate the many kind and pleasant expressions of good will and friendship which have been extended to me by those, many of the minority, who have been my colleagues during the last session of the Legislature, and whose friendship I deeply appreciate, and trust that when the closing days of this session come upon this body, that I will still hold and maintain those friendships, which are so dear and deeply appreciated by me.

I shall endeavor at all times to prove worthy of the great trust that has been imposed on me by you this day, and shall call upon each and every one of you members to give the best that is in you to assist me in administering the office in the interest of the people of the great State of New Jersey.

In all of our minds New Jersey is the greatest and the best State of all those States which are represented by those white stars which grace that emblem, the Stars and Stripes, and to it has been, and is, we believe, one of the best governed States of the Union, and we, as members of the Legislature of that State, must see to it that our services to the State and to its people will be judged by those people, not by the great multitude of bills we can enact into laws to place on the statute books, but entirely by the character and quality of the legislation we bring forth for

final enactment. We must have in mind that the people of this State, as well as those in other States, are calling for fewer laws, and for the better enforcement of those laws which are now on the statute books. And we must learn, too, that upon our election to this House, the people who elect us do not do so with the idea that we should immediately set out to find how many laws we can place to our individual credit, but rather to let the people come to us with their ideas and thoughts for legislation.

The great scourge which has been over Europe for four years and those clouds of that war which have been over these United States for eighteen months is over, though technically peace has not been declared we are confronted still with many problems of the reconstruction period which have arisen since our last session, and to these we should give close attention. There will be further legislation needed for the veterans of the great World War, for those many thousands who so valiantly answered the call from this State, and to enact legislation which will acknowledge our debt to a small degree, as we never can fully pay those thousands for their sacrifices, their hardships and their sufferings, and a measure to give each and every man some acknowledgement from the State, of its appreciation, should, and I hope, be our first thought.

And then, let us not be unmindful of the thought of our martyr President, "that I am not fearful that any enemy from outside will ever reach our Ohio river, but I am afraid that our enemies within will rise up and do us harm." If it was a thought for Abraham Lincoln in those days, it surely must be a burning question with us in January, 1920. There must be no divided loyalty. If a man is loyal to any other flag, foreign, red or black, he is disloyal to the Stars and Stripes, and in this very State the insidious influence of the criminal element of the I. W. W., Russian Workingmen's Party and other Bolshevik red flag movements are being felt, and I know that the people of this State are looking to you, the members of this Legislature, to enact at once into laws the most severe, stringent and absolutely enforceable laws looking to the complete curbing of that element which is trying to tear down our American institutions, not only in New Jersey, but all over this country.

There no doubt will be many bills introduced which will have to do with salary increases, all of which, we need have no fear, are deserved, as when the increased cost of living of the day is taken into consideration, of necessity the need of more wages and salary is just as greatly deserved by those who serve the State and municipalities as those who are employed by the individual. We must give careful consideration to these measures and bear in mind both the increase and the source from which it shall come, the taxpayer.

Our Constitution provides that it is the duty of the Governor from time to time to communicate to this Legislature, of which you are members, recommendations as he may deem necessary, and it is incumbent upon us to give such messages thoughtful and careful consideration, and we should give this same consideration to all matters that may come before us.

Our certificate of membership in this House comes from the people, irrespective of political affiliations, and to give the best that is in us is what the people expect. There must be no partisan action, and what we do must be done for the State and for the people we represent.

Speaking for myself, my promise is given to you here and now, to go hand-in-hand with each and every one of you members, whose purpose it should be, our only desire to enact such laws as are demanded by the people, and further promise to you every member of this House that he will receive my every consideration, and in return ask your assistance to make this, the One Hundred and Forty-fourth Session of the Legislature of the State of New Jersey, one of the most businesslike, and complete with legislation which will reflect credit upon ourselves and to the State which we represent. Let our deliberations at all times have in mind the wage-earner, the farmer, the employer, the charges of the State, the sick, the woman and child.

My committee assignments have given me more cause to worry than any other single thing in connection with my selection as Speaker. Would that there were as many important committees as fifty-nine, and with a like number of clerks, and then my troubles would have been nil. Have given the most

careful consideration to committee arrangements and trust that you will accept the assignments with the thought and desire to serve, and if you think I have failed in any one case, or many, please pardon the mistakes as made by your Speaker.

There are just thirty-nine members who have served in the House before this session, and each and every one appreciates what delay means in opening the sessions on time, either upon the failure of the members or the Speaker, and it shall be my intention to call the sessions to order promptly, and if you members will assist in this respect, am sure that the benefit obtained thereby will go far toward making the session a short one; and to the new members, they soon will find that there are many benefits derived from sessions which are promptly opened.

And to you Democrats, and to you Republicans, let your politics be to find out what is the very best for the State, and to do that first.

The Speaker announced as his secretary Mr. F. Hamilton Reeve, of Englewood, and Mr. John R. Smith, of Hackensack, as assistant secretary.

Mr. Hershfield offered the following resolution, which was read and adopted :

Resolved, That the House now proceed with the election of Clerk of the House.

Mr. Rowland, of Camden county, nominated Upton S. Jefferys, of the same county, for Clerk of the House, which nomination was seconded by Mr. Evans, of Passaic county.

Upon calling of the roll by the Assistant Clerk, Mr. Jefferys was elected by the following vote :

For Mr. Jefferys—

Messrs. Agans, Appleby, Baldwin, Barrett, Blackwell, Blair, Blizzard, Boswell, Bowen, Casale, Coles, Coppinger, Corio, Cranmer, Cross, Dater, DeVoe, Donovan, Eldridge, Evans, Finley, Fooder, Forlenza, Freund, Fritts, Gaede, George, Glover (Speaker), Guthrie, Hansen, Hastings, Headley, Heinzmann, Hershfield, Hyland, Judge, Lewis, Lyons, McAteer, Moore, Muro, Pierson, Roberts, Rogers, Rowland, Schultz, Shields, Siegler,

Silver, Stanton, Stiles, Stout, Sullivan, Tattersall, Tozer, Wallworth, Warner, Whalen, Young Dallas G., Young David—60.

The committee appointed to wait upon the Governor reported that it had performed its duty, and that the Governor presented his compliments to the House of Assembly and would communicate to it later.

A message was received from the Governor by the hands of his Secretary, Mr. M. B. Prugh, as follows:

GOVERNOR'S MESSAGE.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, January 12th, 1920.

To the Legislature:

While the views and recommendations of an incoming Executive are of much more interest and importance, and rightly so, than those of one who is about to leave his office, I believe it will not be taken amiss if at this time I make such remarks and recommendations as seem to me pertinent for the consideration of yourselves during the session now about to open. That ours is a great and heavy responsibility is recognized by all. So many problems are pressing for solution and conditions are so unsettled that it behooves us all to proceed with caution and yet with steadfastness and firmness of purpose.

TAXATION.

The subject of taxation is, of course, of prime importance, as it has always been. The Commission appointed during the early part of last year to study taxation has given much time and thought to the examination of this vast subject and will, I know, bring forth recommendations well worth your consideration. While it does not seem advisable to me to recommend at this time any general legislation in advance of the Commission's report, it would seem that perhaps attention might be given to the advisability of seeking some new sources of revenue, and along this line I would ask you to take under advisement the proposition of increasing license fees upon motor trucks and a mineral tax. And I would also counsel consideration of the proposition to hold forth the greatest possible inducement to manufacturers along the lines of exempting, in whole or in part, the tax upon factories and machinery. This line of legislation has been adopted in some of our neighboring states and I feel

that New Jersey must offer inducements fully as great as any of the other states.

LIQUOR LEGISLATION.

In speaking briefly upon the subject of legislation affecting the liquor traffic I desire to be understood, not as making any recommendations from a wet or a dry standpoint, but with a due regard only for the reputation and fair name of the State. It seems to me, in view of the fact that there are not wanting agencies which are taking all possible steps to gain a decision from the United States Supreme Court regarding the validity of the Eighteenth Amendment, that it would be inadvisable for New Jersey to undertake any legislation in the meantime which might be interpreted as attempted nullification of the Federal Constitution's provisions. Until the amendment in question shall be finally passed upon it must be regarded as the absolute law of the land and the plain intent and purport of its language should be held by all in the same veneration as accorded any other section of the Constitution. Let New Jersey take no step until her right so to do along constitutional lines shall be fully determined.

WOMAN SUFFRAGE.

It seems extremely probable that the ratification of the Nineteenth Amendment, according suffrage to women, will pass at this session. I am glad that such is the case and trust that nothing may stand in the way of attainment of this end. A great many of us who doubted formerly the advisability of this step have, through the agencies and lessons of the war, come to the conclusion that there is no logical reason or excuse left to deny this privilege to the women of our State. Especially are we urged to this conclusion by reason of the fact that legislative action in both New York and Pennsylvania has favored this condition and that New Jersey women are thus left in a position distinctly inferior to that of their sisters in New York and Pennsylvania. I trust that action upon this question may be both prompt and emphatic.

SABBATH OBSERVANCE.

Concerning my recommendation upon this subject I want to say that to my mind the strongest argument against legislation looking to the breaking down of the so-called American Sabbath is the fact that those agencies which are bent most vigorously upon the destruction of our American institutions and ideals are the most godless ones. They refuse to recognize the existence of a Supreme Being and therefore any legislation accomplishing the surrender of the American Sabbath must be taken as a compromise with these forces. I recognize full well that it is not our part to dictate the beliefs or actions of our fellow citizens, but the great moral obligation at this time is to defend our American institutions as they have existed from the beginning, against those who would shatter and tear them down. For that reason I hope that any legislation looking to the doing away of the protection heretofore granted the Sabbath may be de-

PROFITEERS.

New Jersey, unfortunately, has her profiteers, and that they should be defeated and driven out is a most desirable end. Present day conditions are hard enough to meet, without the added burdens imposed by those whose insatiate greed has made the problem of sustaining life and any degree of creature comfort a most difficult one. I would therefore recommend legislation forbidding the practice in general and as incident thereto, providing in case of proven guilt for the conspicuous public advertisement of the name and offense of the one so charged. I believe the enactment of such legislation would of itself go far toward discouraging this nefarious practice.

RENT AND HOUSING CONDITIONS.

In our big centers of population the problem of housing is of very serious import, and much suffering has already been occasioned by reason of the lack of habitations, the tremendously high

cost of building operations and the merciless demands of many landlords. In the first place, I recommend the enactment of such new landlord and tenant laws as will give magistrates more discretion than they at present have in preserving the rights of honest tenants against the rapacious demands of speculative and trickster landlords. Secondly, I would urge upon building and loan associations as liberal a policy toward prospective home builders and owners as is consistent with safety, both because such policy will go far toward providing homes for thousands who at present are in sore straits, and because the possession of a home makes a good and stable citizen. The demagogue and the agitator does not find his prey among the home owners. And while I see no feasible way in which the State may directly remedy the present housing conditions, I would recommend such legislation as is possible to give municipalities adequate power to solve their respective difficulties in this respect.

BLUE-SKY LAWS.

During recent years there has been an unwarranted amount of exploitation of worthless securities. The public has been gulled thereby and serious loss occasioned among the people of small means. Other states have recognized this condition and have remedied it through legislation. I recommend that New Jersey follow suit and make it necessary for those who would exploit these securities to make public the financial condition and resources of such institutions as seek to sell their stocks and bonds to the New Jersey public.

DAYLIGHT SAVING LAW.

The movement to establish a daylight saving law in this and neighboring states is well under way and undoubtedly possesses many advantages. In seeking to enact legislation to this end in New Jersey I would simply call attention to the farmer's attitude in this matter. I believe that his antagonism is based upon a sound thought, namely, the attendant labor difficulties. The farmer's help is left idle each morning for perhaps

an hour or two, but insists upon quitting work at the ordinary time in the afternoon. This forces him to pay for considerable labor that he does not receive, and in settling this question for New Jersey I wish that this phase of the matter might receive your serious consideration.

TEACHERS' SALARIES.

I know of nothing more important at this time than that those who have the education of our children in charge should be well equipped and capable. Unless proper remuneration for those who enter the teaching profession is provided we shall be unable to get men and women of the proper calibre or to retain their interest for any length of time. It would seem, therefore, very advisable to me that all possible encouragement should be given to those who enter the profession of teaching in order that the next generation shall be prepared for its work in the best possible manner. I know that the movement toward this end is being undertaken in general by municipalities in connection with their local teaching staffs, and I strongly urge that the State, in so far as its jurisdiction extends, may follow a like course. Especially do I recommend that proper recognition be granted to the helping teachers. Their work, to my mind, is of tremendous importance and tends to minimize, as much as possible, the difference between the rural and urban schools. They have been rendering devoted service for a very small return and I hope that this condition may be bettered by your action.

EXTENSION OF SCHOOL SYSTEM.

Our school system in New Jersey has done splendid service and is continuing so to do. My hope at this time is that its work of offering means of education to the foreign-born may be extended further than it has already gone, to the end, primarily, that the English language may become the common language of all and that in connection therewith there may be a closer acquaintance with our institutions and methods. While we are educating the children along American lines it seems to

me very advisable that the foreign-born of adult years shall receive the proper degree of attention, and to my mind this attention should be given, not from the standpoint of those who look down upon and patronize the people, but in the spirit of equality and helpfulness.

PUBLIC UTILITIES.

I would recommend that the law regarding the Public Utilities Commission be so amended that the present membership of five be changed and a membership of three be provided. I believe that this change will prove highly beneficial and that none of the Board's efficiency will be lessened by reason of the smaller number of members. In this connection it would seem to me advisable, if it meets with your approval, that a salary commensurate with the importance of the work involved be established for the members of such Board, thus insuring the attraction of men of wide knowledge and ability, and that consideration be also given to the proposition that such membership should consist of an engineer, an accountant and a lawyer. As nearly as possible a board so constituted should be able to meet the questions coming before it and treat and dispose of them in such fashion as to accord justice to all concerned. There is no more important body in the State than such a Board, and it is highly desirable that men of the highest and best type be attracted to serve thereon.

SOLDIERS' PREFERENCE.

The efficiency of the State service is of the first importance and no consideration whatsoever should be allowed to interfere therewith. With that thought, however, comes another one, worthy our earnest contemplation, and that is that if the State, without injury to itself, can give preference in her service to honorably discharged veterans of any of our wars, she should be most ready so to do. We already have a so-called preferment act in operation, but I would recommend amendment thereof to the end that the procedure giving such preference be more clearly defined and that disregard of the provisions thereof be forbidden in no uncertain way.

SOLDIERS' BONUS BILL.

As I understand it, both parties stand practically committed to the passage of an act granting a bonus to our honorably discharged veterans of the great war.

While I am as desirous as anyone can be that the State accord every possible recognition and honor to those who ventured all, the payment of a sum of cash money, which of necessity must be small, seems to me a most unfeeling and inadequate means of expressing our thanks. If I could have my way, I would have established a great fund in New Jersey under the joint control of the veterans and the State, and the proceeds of this fund, either principal or interest, and in any amount that should prove needful, should go from time to time to alleviate want or distress among the veterans or their families. This, I believe, would prove to be real service, and I submit the proposition to you for your consideration.

Should the straight bonus plan be adopted by you, however, I would recommend a bond issue therefor, and the submission of the question to the people as the law requires.

STATE BOARDS AND INSTITUTIONS.

From personal contact with many of them, I believe that the State is being splendidly served by those who are members of the various managing boards and those who are acting as heads of our various institutions. It is a mighty problem which we have, that of the protection and care of our dependents, and I am glad to say that to my mind the men and women who are carrying on this work are giving service of a high and devoted kind. It seems to me that their efforts should be encouraged and furthered in every possible way. Not only is this devotion confined to those who are attempting to take charge of the dependents of the State, but in like degree belongs to those who have in charge the big economic and industrial problems of our State, and I am sure that a policy of sympathetic co-operation and encouragement on your part cannot but militate largely for the benefit of the State, and this attitude I strongly recommend.

ROADS.

New Jersey, once known as "the mother of good roads," has come to realize that in the absence of an intensive future program along the line of road building this one-time reputation of hers must forever be lost.

The war, to be sure, caused us to suspend all minor activities, and the roads had to suffer in common with other projects, but post-war conditions demand an intensive campaign for the rehabilitation of the State highways, and I am sure that the public will gladly accord praise to any and all efforts having in view a quick repair of existing highways and the expansion and building of new ones.

SOCIAL ACTIVITIES.

I would call your attention to the splendid work being done by the Department of Child Hygiene and that for the Rehabilitation of Injured Workmen. While for these purposes great sums of money are required, it is money well spent. The Department of Child Hygiene is making better parents and sturdier children, lessening the death rate materially, and teaching the ways of hygiene and sanitation throughout the State, while the Department for the Rehabilitation of Injured Workmen is making valuable economic factors of those who under the old system were considered useless. I trust that these departments may be accorded your sincere co-operation and backing.

RETIREMENT SALARIES OF JUDGES.

It is only fair that those men who have served the State upon the bench of the Supreme and Chancery Courts should be allowed to retire when they have attained the age of seventy years upon a salary which will allow living conditions. New Jersey jurisprudence has always been illustrious and her courts and decisions have been regarded with great respect throughout the land. This would seem ample cause for allowing those who have con-

tributed so largely to this happy result to spend their later years in comparative ease and comfort. I would recommend the amendment of existing laws looking to that end.

NEW NATIONAL GUARD.

The Federal policy establishing the new National Guard is now fairly well settled, and under its provisions New Jersey already has one regiment, and will probably in another year have an additional one. This being the case, it has seemed advisable to me to order the disbandment of the State Militia. In doing this I have been mindful of the devoted and distinguished services rendered by this body, and I desire to take this occasion to pay my tribute to the members thereof for what they did in the dark days of the war. The purpose for which they were organized having largely passed, and their continued maintenance being a decided expense to the State, I have been minded to make the order of which I have spoken, and these conditions are the only reasons for my having so done. In connection with the new National Guard, I hope that many members of the State Militia will join this body and continue their valuable activities for the State. I would recommend that any encouragement which the State can give toward the efficiency of this new Guard be accorded, as I believe we shall have a highly developed and efficient body of men, many among the membership of which will be those who have seen actual war service both here and abroad.

BRIDGE AND TUNNEL BONDS.

I strongly recommend that steps be taken immediately looking toward the submission to the people of the question of a bond issue with which to finance the bridge and tunnel schemes. Ordinarily a bond issue of such magnitude, and I believe it ought to be for twenty million dollars, would necessarily be attended with very serious thought as to the refunding thereof, but in this case I feel that the solution is in plain sight and makes simple the problem. In other words, the people may authorize a bond issue

in the full conviction that the moneys raised thereby will be returned to the State through the medium of bridge and tunnel tolls. While a great deal of time will be involved before the entire sum shall be returned, nevertheless funds for payment of principal and interest will be amply provided. The importance of these two projects, I believe, no one will deny, and that they will be so easily provided for is to my mind a happy condition.

AMERICANISM.

We are all painfully aware that there are agencies among us which do not think or act in American terms; agencies of discontent and agencies of destruction. That these forces must be dealt with and defeated goes without saying. I do believe, however, in dealing with them there must be a great amount of tact combined with firmness, and that our repressive measures must be in every instance accompanied by reason. If there are those among us whose aim it is to counsel a change in methods through the means of peace, even though these methods may seem to us ultra radical, I believe that it is their right so to do, and that the rights of free speech and free press should be granted them at all times. But when an apostle of change counsels a resort to violence, then he has put himself without the pale of that protection which America has ever granted her citizens, and should be stilled without any delay whatsoever. To my mind we must be ever alert and ever vigorous to the end that law and order shall reign supreme in every part of our State, and that those who have had few advantages shall not be made the prey of designing demagogues who seek to disrupt our commonwealth. So far as State activities are concerned, I believe education will play a most important part—education in American ideals and American purposes—and that our educators must show plainly that theirs is the work of those who have real sympathetic interests, and is not the course of those who in perfunctory fashion alone labor in this great field. Every citizen of the State, be he great or small, of high or low degree, who has the interest of the State and country at heart, can contribute in no small way to the success of this movement. The need is not only for Americanizing the foreign-born who come to our shores, but to instill into the heart of every

one of us that degree of warm loyalty and affection which is imperative if we shall save all that for which so much sacrifice and devotion has been given.

GOVERNOR EDWARDS.

Finally, I want to urge upon the members of the Legislature a spirit of hearty co-operation with the Governor who shall take office on the twentieth day of the present month. The importance of the issues of to-day is so great that partisanship must be laid aside and men of all shades of political belief join together for the common good. If Governor Edwards shall put forth those measures which ought to commend themselves to any reasonable citizen, I hope that he may have the support of every member of the Legislature, irrespective of party. If, on the other hand, he shall, through mischance or otherwise, give his backing to anything that is unworthy, I trust that the Democrats, as well as the Republicans, will unite in defeating such measure. But for all general purposes I am convinced that our new executive will wish to do his great and solemn duty only, and I bespeak for him your good offices at all times.

And now I desire to express the hope that for you, each and every one of you, the session now beginning may prove profitable as well as pleasurable, and that as a result of your work New Jersey may be strengthened and better prepared than ever before for the days which lie ahead.

Respectfully submitted,

WILLIAM N. RUNYON,

A message was received from the Governor, by the hands of his Secretary, as follows:

INAUGURAL ADDRESS.

Gentlemen of the Legislature:

As the responsible heads of Government of this State, certain problems confront us which concern intimately the people of the State. It is my purpose herein to direct your attention to these problems and to suggest the lines along which I believe the remedy lies.

First and foremost is the matter of sumptuary legislation enacted by the Federal Congress. During the campaign recently waged in this State there was squarely presented the issue whether the people of New Jersey desired to be understood as being in favor of surrendering to the Federal Government the power of regulating the exercise of their personal liberties. Squarely presented as that question was, the people of the State just as certainly answered it in the negative. As I interpret the result of the election, the citizens of New Jersey insist upon reserving to themselves the right to say how they shall live, and they believe that measures regulating their mode of life have no place in the organic law of the nation.

During the campaign I made definite pledges as to what I would endeavor to accomplish if elected Governor. One was that I would do every lawful thing to have it determined that the present condition of affairs with respect of prohibition had been illegally forced upon the people of this State. To that end I now recommend that these things be done:

First. Section 2 of the so-called "Eighteenth Amendment" is as follows:

"Section 2. The Congress and the several States shall have concurrent power to enforce this article by appropriate legislation."

While it is not my purpose to make part of this message a brief on the subject, it must nevertheless be understood that our theory of Government is that the nation is made up of States to which are entrusted the powers of local government. To those

States and to the people the powers not expressly delegated to the National Government are reserved. The power of the States to regulate their purely internal affairs by such laws as seem wise to the local authorities is inherent and has never been surrendered to the National Government. I might point out to you that the language of the so-called "Eighteenth Amendment" is unique in this respect, viz., that there is reserved to the several States concurrent power to legislate upon the enforcement thereof. For the first time in our history such language makes its appearance in the Federal Constitution. Its presence there is not the result of accident or idle thought, but rather is indicative, if the amendment was ratified at all, of the intention on the part of the several States to require their concurrence, at least as to intra-State commerce in any proposed Federal legislation concerning intoxicating beverages. In that view I am supported by the opinion of counsel.

There are some, however, who hold that under the reserved concurrent power, action by Congress to enforce the amendment would, in the absence of a contrary statutory declaration on the part of the State, effectively apply to us.

Therefore, to guard against the contingency of there being an attempt to enforce Federal legislation between the adjournment of the present session of the Legislature and the determination of the validity of the Eighteenth Amendment, which legislation may be contrary to the expressed desire of our people, I respectfully urge upon you the passage of legislation which will assure to our people the right to live under conditions satisfactory to them. That proposed legislation has been drawn and will be introduced at this session.

I earnestly urge upon you the speedy passage of that bill. Regardless of party affiliation, the members of the Legislature must respond to the will of the people, and the people have declared themselves on this subject.

Second—I am advised by counsel that grave doubt exists whether the amendment was legally ratified, and that the same doubt exists as to its being a proper subject for legislation by amendment to the Constitution. I therefore propose to request

the Attorney-General of the State to present to the United States Supreme Court the petition of the State of New Jersey as a sovereign State, praying that these questions may be speedily determined so that our citizens may know what their rights are in the premises.

Third—That there shall be passed by the Legislature a resolution refusing to ratify or accept the said amendment.

My policy on this subject will no doubt provoke from some the criticism that I am flaunting the Constitution of the United States. I yield to no one in my respect and regard for that declaration of our rights and liberties. But I am strong in my conviction that the rights of New Jersey as a sovereign State under the Constitution have been invaded, and I insist it is my sworn duty to have it definitely established in a legal manner by the duly constituted authorities whether that is so or not.

Whatever criticism may come, I will not abandon my position that our rights have been infringed until otherwise determined by the Courts.

PUBLIC UTILITY COMMISSION.

The next important question is the settlement of the relations of the public utilities of the State to the people, and particularly the settlement of the trolley fare controversy. The problem is here, and our plain duty is to solve it if we can.

The people of the State have become weary of the continual litigation over fares and rates, because of the great expense involved and of the unsatisfactory nature of the results thus far obtained.

The rate-making legislation of 1911 grew out of the public belief that the utility corporations of the State were charging excessive rates for the service they rendered, and that competition as a means of relief was a practical impossibility. That act was expected to result in the prompt fixing of rates by the Commission which should be fair both to the public and to the corporations. At that time it was supposed that one of the essential elements in the fixing of a rate was the value of the utility's property.

Little progress, however, has been made in the past eight years, in the valuation of the property of these public utilities. The gas plant of the Passaic district of the Public Service Corporation, and the property of the Telephone Company and of the Street Railway Company of Trenton have been valued, but the remaining immense properties of the great Public Service Corporation of the State have not yet been valued. Under the pressure of the exigencies of the war, the Public Utility Commission began to increase rates without any valuation, but based upon emergency conditions. This action led to court decisions justifying the fixing of rates without a valuation, and wiping out all of the contracts limiting rates and securing other municipal advantages which had been solemnly agreed to by these corporations as a fundamental condition upon which their franchises were granted. The Public Utility Commission has further aggravated the public mind by trying crude experiments with the zone system, without first determining how much money the company is entitled to earn, and these experiments have aroused intense opposition among the patrons of the road and the public generally. For these and other reasons the whole subject of the proper control of these public utilities is now back again in the politics of our State, and it is my duty and yours to face this problem and to find a final and permanent solution.

I therefore recommend the following:

The present members of the Public Utility Commission have lost the confidence of the public, and no settlement or attempted settlement administered by them will satisfy the public mind. These men should be removed from office and a new Commission established. I recommend the immediate passage of a law abolishing the Public Utility Commission and providing for an elective commission of three members to be elected next November. I further recommend that the act provide for the creation of a temporary commission of three members, to be appointed by the Governor with the advice and consent of the Senate, to act until the elective commission is organized.

Valuing the properties of such companies is an arduous task. It should not be placed upon the shoulders of the Utility Board,

inasmuch as that Board, in order to give efficient service to the people, should be left free to hear and act promptly upon complaints laid before it.

The problem of valuing the properties should be dealt with by a valuation commission, the creation of which will be provided for in a bill to be introduced at this session. To accomplish such a task that commission, of course, will require an appropriation, and I earnestly urge upon your Appropriations Committee immediate investigation of the subject so that it will be able to include a provision for the necessary moneys in the annual appropriations bill.

Opposition to the fare increases by the Public Service Railway Company does not rest alone upon the failure of the Public Utility Commission to ascertain the value of the company's properties. It is the result as well of the belief of the public that the company has been permitted to earn moneys for dividends upon stock and for interest upon bonds for which no consideration was paid at the time of their issuance. In other words, such stock and bonds are "water".

The facts should be finally and definitely ascertained; when known some solution should be determined upon.

The Valuation Commission should not only value the physical properties of the company, but also find out how much "water" there is so that some plan may be devised to get rid of it.

STATE HIGHWAY REORGANIZATION.

The reorganization of the State Highway Commission is of urgent importance.

There is no board or body in the State of New Jersey that has received more justified public condemnation than the present State Highway Commission. Such condemnation is not entirely due to a lack of ability or purpose on the part of all of the individual commissioners, but also because the Board is so constituted as to make effective administration of its affairs impossible. No board of eight unsalaried members can be expected to give the time necessary to promptly and efficiently deal with the intricate details involved in the expenditure of almost \$10,000,000 per

year; nor can such a board, by meeting once a month, properly dispose of the interlocking business of counties. The result has been failure to carry out the road program expeditiously and failure to render full co-operation to county governments.

The Highway Commission should be in constant session. Matters of importance in highway construction, both in regard to State highways and with reference to counties' aid, should be determined without delay. I therefore recommend the abolition of the present State Highway Commission, and in place thereof a board of three commissioners, who should receive adequate compensation. I am opposed also to the employment of engineers imported from other States when there are experts within the borders of New Jersey who are equally competent.

Bills will be submitted to you along the lines of these recommendations, and I firmly believe that in every portion of the State a change in the highway organization will be welcomed from boards or bodies now having concurrent powers.

ECONOMY AND EFFICIENCY.

The general recommendations with reference to the State Highway Department will also apply to numerous State Departments which have been reorganized in recent years under large boards, misstyled "Economy and Efficiency Boards."

An examination of conditions in these Departments reveals the fact that such boards take little or no interest in the management of their Departments, and that it devolves either upon some appointee or upon one or possibly two enthusiasts in the various commissions who are willing to sacrifice their time to the State. Such a condition results generally in inefficiency and in very questionable economy.

A State Department is, generally speaking, administrative, and I strongly recommend the placing of responsibility for department management in the hands of smaller commissions, whose duty it will be to be in active session at all times. I shall deal in a special message with this subject in detail.

INTERSTATE BRIDGE AND TUNNEL.

I am opposed to the imposition of direct taxation for the building of the Interstate Bridge between Camden and Philadelphia, and the Interstate Tunnel between Jersey City and New York. That these improvements should be speedily undertaken, we are all agreed. New Jersey, however, cannot finance these important projects by direct taxation. Already local taxes, both municipal and county, have largely increased, and the so-called "Edge Tax Act" for the building of roads forms an added burden. In principle, it is wrong to pay the cost of a long term improvement by direct taxation. The benefits of a long term improvement should be so assessed that they will be paid for during the life of such improvement by the people who receive the benefit. I believe that a bond issue should be undertaken for the building of the bridge and tunnel. I have no doubt that the constitutional requirement of a referendum would result in an enthusiastic endorsement by the people. The bond issue need not be a charge against the taxable real property of the State. Both interest and serial retirements can be met from a portion of the moneys now collected from motor vehicle registration, and when the tunnel and bridge are operated this charge can be met from the tolls collected. This is an application of the principle that the user pays the cost. Bills to carry out this program will be submitted to you early in the session.

TAXATION.

The question of State and local taxation will have particular attention in special messages. Before communicating with you on the subject, I desire to make a more thorough study of the financial condition of the State and the municipalities. At this time I recommend for your very earnest consideration the steps necessary to be taken to complete the road program. I am informed that the moneys raised under the so-called "Edge Act" will not pay for more than half of the work outlined, and that, therefore, at the end of the five-year period only fifty per cent.

of the State highways will have been properly constructed. The State, therefore, must consider very shortly whether it will raise the balance of the money necessary to complete this work by a direct State tax or through a bond issue. I am opposed to further direct State taxes. It is a matter for regret that the highway program could not have been carried out with the moneys provided under the Edge Act. I do believe, however, if the roads now built are of any value whatsoever, they are in the nature of a long-term improvement, and I believe that the cost of completing these roads should be met by a bond issue. Upon this subject I shall send a special message later to the Legislature, containing estimates which I will ask the present State Highway Engineering Department to prepare, indicating exactly the position in which we find the highway construction of the State.

HOUSING.

Much hardship has resulted from the insufficiency of housing accommodations throughout the State. It would be going too far for the State to embark upon the building of homes. I could not assent to such a program. But I am sure that present conditions can be ameliorated through a study of the situation by competent men of affairs.

It may be possible through changes in our laws with respect of taxation, tenement house requirements, savings bank investments, building codes, etc., to stimulate the building of new homes for our people.

The matter is one for examination at the hands of a commission. The situation is critical, and if any laws are to be enacted, they should be introduced as early in the session as the commission can report.

The investigation by the commission will require the devotion of practically all the time of its members if we are to accomplish any results this year. I am sure, however, that men of sufficient public spirit and ability to make the sacrifice will be found. There will be presented to you a resolution authorizing the appointment by the Governor of such a commission, the resolution to provide that a report be made to the present Legislature.

LABOR.

During the last campaign the party of which I am a member pledged itself to the passage of laws improving the condition of laboring men, forbidding the unwarranted issue of writs of injunction in labor disputes where no property rights are involved other than the property right claimed in the labor power of the human being, and guaranteeing to the working men of New Jersey the right of trial by jury in all cases of alleged contempt committed outside the presence of the court.

Bills carrying out that pledge will be presented to you for your consideration. I earnestly urge their passage. Such legislation will represent modern thought upon the subject, and in my judgment go far toward effectuating that complete understanding between capital and labor so necessary if we are to prosper in this country.

WOMAN SUFFRAGE.

The Federal Congress recently passed a resolution proposing to amend the Constitution of the United States by providing that the right to vote shall not be denied or abridged by the United States or by any State on account of sex. That amendment is now before the several States for ratification. I believe it to be only justice to grant that right to the women of the State, and I urge upon you the passage of a resolution ratifying and accepting such amendment.

GENERAL MATTERS.

There are a number of other subjects, such as the condition of the State institutions, condition of State finances, the possible creation of a State Insurance Fund as a substitute for the present Workmen's Compensation Law, the passage of laws for the benefit of our soldiers and sailors, veterans of the recent war; and taxation, and the "Economy and Efficiency Boards" to which I have generally referred heretofore, upon which I shall make recommendations in special messages to be sent to you later.

Grateful to the electorate of the State of New Jersey for the high honor they have bestowed upon me, and mindful of the oath of office I have just taken, I enter upon the duties of Chief Executive of this great Commonwealth to redeem the pledges I made to the people. I solicit your hearty co-operation and assistance in the fulfillment of these pledges. I trust that loyalty and patriotism will rise above partisan consideration, and that we shall all work together for the common weal of the citizens of our beloved State.

A message was received from the Governor, by the hands of his Secretary, as follows:

	STATE OF NEW JERSEY,	}
	EXECUTIVE DEPARTMENT,	
<i>To the Legislature:</i>	TRENTON, February 16th, 1920.	

Prior to 1911, the liability of the employer to answer for injuries sustained by his employees depended upon the application of certain principles of the law of negligence. Through the passage of Chapter 95, P. L. 1911, there was instituted a new policy. The element of negligence was eliminated as a condition of liability on the part of the employer and limitations were placed upon the amount of damages or compensation which might be awarded for injuries or death.

It is now nine years since the original act was passed. From year to year various changes have been made through amendatory and supplemental statutes. The original act and its amendments and supplements have received judicial construction in a fairly large number of cases. Thousands of our citizens are directly affected by the laws in question, and the question as a whole constitutes a very important subject or regulation.

In view of the fact, that such policy has been in force for nine years, and in view of the various amendments of the original act and of the supplements thereto and of the judicial constructions placed upon the same, it seems to me that the time has arrived when we might profitably consider and reflect upon the benefit gained by the State through the institution of such a policy, and we should consider further whether in view of our experience of the past nine years and of the amendments and supplements to the original act and the various court decisions, a complete revision of the existing laws could not be advantageously made.

Furthermore, I understand the theory supporting the adoption of such policy is that compensation is to be made to injured workmen regardless of whether or not the employer is negligent, so as to prevent such injured persons from becoming a charge upon the community, and to facilitate the effectuation of such purpose, the compensation is spread over a period of time meas-

ured by the supposed period of disability so as to prevent the dissipation of moneys paid for injuries.

In the case of awards made to dependents, the same deferred method of payment is used largely, I suppose, for the same reason and to insure the dependent of having an assured source of income during the period when the dependent is unable to support itself.

No one can, I think, quarrel with the humanity of such purposes, nor with the general desirability of protecting injured workmen, and in death cases, their dependents, so that their usefulness to the community at large may be conserved and so that they may be prevented from becoming a charge upon the State. I am impressed with the thought, however, that in the institution of such policy, the State assumed the responsibility of seeing that as large an award for injuries or death should be made as is possible without creating too heavy a burden upon the shoulder of the employer. That may be accomplished, perhaps, through the creation of a State Insurance Fund, managed by the State, to which the employer shall contribute and out of which compensation is to be made, thereby eliminating the exaction from the employer of accident insurance premiums large enough to earn profits for the companies carrying on such business.

I am further strengthened in this by certain information which I have obtained from the Department of Banking and Insurance, viz.:

That between the year 1913 and the year 1918, inclusive, such companies collected in premiums from the employers of this State, the sum of approximately \$17,200,000.00, and that they paid out to injured workmen or to dependents in death cases, only approximately \$6,500,000.00. The difference of \$10,500,000.00, approximately, is, of course, the companies' profit less the expenses of handling the business.

I have eliminated from consideration transactions prior to 1913, for the reason that during the years 1911 and 1912, separate reports of workmen's compensation premiums and losses were made and were included with general liability insurance.

The following table may be of value in considering this matter. In passing, I might say that it is illuminating to observe the tremendous increase in amount of premiums collected in 1918 over 1916, and the comparatively small proportional increase in the amount of losses for the same period.

Note.—The figures for 1919 cannot be given, as returns from only twelve out of forty-six companies have been received up to this time, February 9th, 1920.

In my judgment, such a result defeats the purpose of the State's policy. If the policy is worth while, and I am sure it is, then we should see to it that the persons for whose benefit it was put into force get all the benefit possible.

I understand the State of New York now operates a State Insurance Fund. My desire is to suggest the investigation of the creation and operation of that fund so that if it is found to be practicable, a similar fund may be instituted in this State and the present system abolished.

Such a resolution will be introduced and I earnestly urge its passage.

Respectfully submitted,
(Signed) EDWARD I. EDWARDS,

Governor.

J. HARRY FOLEY,
Secretary to the Governor.

Mr. Cross offered the following resolution, which was read and adopted:

Resolved, That the privileges of the floor be extended to Chas. F. Hart, of East Orange.

The following communication was received, and, on motion of Mr. Hershfield, was referred to the Committee on Taxation.

To the Members of the Legislature of the State of New Jersey:

The undersigned, being four of the five members of the Commission to Investigate the Tax Laws appointed by virtue of a joint resolution of the last session of the Legislature, desire to bring to your attention a recommendation concerning the salary of the President of the State Board of Taxes and Assessment. As one of the members of this commission, the Honorable Frank B. Jess, is at the present time President of the State Board of Taxes and Assessment, and is therefore personally affected by any recommendation on this subject, we deemed it inappropriate to include our recommendation as to this matter in the report on the general subject of taxation which we have had the honor to submit to the Legislature.

As at present constituted, the State Board of Taxes and Assessment consists of five members, four of whom are paid a salary of \$3,000 each, the president or chairman being paid a salary of \$4,000.

As a matter of actual practice in the administration of the work of the board, a very large share of the work falls necessarily upon the president of the board. In all contested cases the board is expected to follow, as nearly as possible, the ordinary rules prevailing in a court of justice. This requires that the president of the board should have a knowledge of the law in order to prevent irrelevant matter from getting into the records, and to make sure that no competent evidence shall be excluded. This is necessary to protect the rights of litigants, because all findings of the board are subject to review by the court. For the same reason the chairman is required in all important cases to draft a memorandum of the reasons which have governed the board in arriving at its conclusions. This involves careful study of the record and an analysis and summary of the evidence, which can only be done by the president of the board.

For these reasons and from the fact that the business of the board is constantly increasing, the result in actual practice is that the chairman of the board, whoever he may be, can have little or no opportunity to attend to private practice, and therefore his professional business must necessarily be neglected. It seems to us that in the long run it will prove impossible for the State to get a competent man willing to accept the presidency of the board at the salary which is now being paid.

This suggestion is further strengthened by the fact that before the State Board of Equalization of Taxes the president of the latter board received a salary of \$5,000, and the board had no

jurisdiction of railroad property assessments and appeals. work of the board was largely increased by this consolidation and the responsibility and labor of the president of the consolidated board was very greatly increased. For this reason alone it would seem that a mistake was made in limiting salary of the president of the board to \$4,000.

We therefore recommend that the Legislature amend the act establishing the present State Board of Taxes and Assessments by providing that the chairman or president of the board shall be a lawyer, and that he shall receive a salary of at least \$5,000 per year.

We make this recommendation without reference to the fact that the office of president of the board is at present filled by our associate, Mr. Jess. While we believe, as everyone does who has had experience before this board, that Mr. Jess has brought to the discharge of his duties as chairman legal ability of a high order and the judicial temperament which is characteristic of him, and would be personally glad to see his great services to the State properly compensated, nevertheless this recommendation is submitted as a matter of principle, and as a proper policy for the State, which should be established irrespective of the individual who now holds or may hereafter hold the position of chairman of the board.

Respectfully yours,

GEORGE L. RECORD

A message was received from the Senate, by the hands of its Secretary, as follows:

STATE OF NEW JERSEY,
SENATE CHAMBER,
TRENTON, N. J., Monday, March 1st, 1920. }

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has concurred in the following concurrent resolution:

Resolved by the General Assembly of the State of New Jersey (the Senate concurring), That no further bills or joint resolutions (except the usual appropriation bills and bills submitted by special investigating committees) be offered in either house of the Legislature after Monday, March 1st, 1920, unless by unanimous consent of the members wherein such bills or joint resolutions are proposed for introduction.

WILLIAM H. ALBRIGHT,
Secretary of the Senate.

A message was received from the Governor, by the hands of his secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, N. J., March 1st, 1920. }

GENTLEMEN OF THE LEGISLATURE:

In my inaugural message it was stated that further communications would be sent you upon various topics, among them being the matter of taxation and the development and completion of the State Highway System. The subjects are related to each other and can be conveniently dealt with in one message.

STATE HIGHWAY SYSTEM.

In 1917 the "Edge Act" was passed. It outlined fifteen definite main routes, and provided that under certain restrictions such routes should be constructed with permanent pavement. A companion bill ("Edge Road Tax Act") was also passed providing for a tax of one mill on each dollar of real and personal property in the State.

It was contemplated that the sum thereby provided to be raised would aggregate substantially \$15,000,000, its collection being spread over a period of five years. It was further contemplated that such sum, together with such Federal aid as might be received, amounting to approximately \$3,000,000, would be sufficient to complete the Highway system called for by the "Edge Act." So far as I am informed, the following facts have never been definitely brought to the attention of yourselves or any previous Legislature.

Immediately after the passage of the "Edge Act" of 1917 the Highway Department made a preliminary survey of the fifteen counties and prepared an estimate of the cost of constructing such roads, eliminating grade crossings and such other matters as were necessarily involved in the construction of a modern highway system. It was found that even under the then prevailing comparatively low costs, the Highway system could not be completed for anything like \$15,000,000, but would cost \$38,667,800, as detailed as follows:

Highways,	\$31,706,605
Bridges,	6,961,195

On passing, it might be said that at the time of making such an estimate there were 70 miles of county highways and roads so constructed, it was believed, they would comply with the law, and the cost of rebuilding such roads was not included in the estimate. Since the making of the estimate 35 miles of such county highways have deteriorated to such extent that they must be reconstructed under the present program of the State Highway Department.

I do not wish to make any undue strictures on the policy of the Highway Department or the past administration in dealing with the subject matter, but it does seem to me that both the Legislature and the people have been allowed to remain woefully ignorant of the real facts.

It was known in 1917 that \$38,000,000 would be required to complete the Highway program, and that the sum called for by the "Edge Road Tax Act" would not complete even half of the system. It is my belief that the general understanding of the people of the State is and has been that the moneys they paid

by way of tax under that act would be sufficient to defray the cost of a complete State Highway system.

The information detailed above was given me by the State Highway Department. I am further informed by that department as follows:

There are 655 miles of highways contemplated in the system.	
There are 236 miles of highways either already built, under contract or included within the program up to December first, 1920.	
The cost of such roads already built, contracted for or contemplated with the 1920 program is.....	\$11,534,678
to which must be added the estimated cost of certain work on the Perth Amboy Bridge, amounting to	350,000

which is a total cost of	\$11,884,678
--------------------------------	--------------

The total funds available to the Highway Commission are made up as follows:

Money collected and to be collected under the "Edge Act" up to July 1st, 1922,	\$15,000,000
Federal Aid,	3,265,844

Total funds available to July 1st, 1922, ...	\$18,265,844
Subtracting from that figure the amount already expended, contracted for or contemplated to be spent in 1920, of	11,884,678

leaves a balance of	\$6,381,166
---------------------------	-------------

There remain to be completed 419 miles of highways, which it is estimated will cost as follows:

Highways,	\$25,140,000
Bridges,	12,000,000
Total,	\$37,140,000
Balance remaining December 1st, 1920, as above, .	6,381,166

Amount required to complete present system,	\$30,738,854
---	--------------

A simple computation indicates that the cost of the Highway system, instead of being \$15,000,000, will, when completed, be approximately \$42,000,000, or nearly three times as much as was represented to the people when the "Edge Road Act" of 1917 was passed.

What is to be done in view of the circumstances is a matter of grave concern. The solution or remedy which I have in mind will be referred to by me later, after I have discussed some other matters.

INTER-STATE BRIDGE AND TUNNEL.

The New Jersey Inter-State Bridge and Tunnel Commission is about ready to report. It is my understanding that the cost of the proposed tunnel between New York and New Jersey will be in the neighborhood of \$28,660,000. I am also of the impression that the cost of the connecting link between Pennsylvania and New Jersey will be about the same, so that New Jersey's share of the cost of these two improvements will be approximately \$28,000,000.

The tunnel to New York is of vital concern to the people of this State and its construction should be begun at once. It cannot be delayed any longer than is absolutely necessary. Under the most favorable circumstances the work cannot be begun until the spring of 1921, for the reason that in order to raise the money bonds must be issued and the consent of the people to the issue will have to be obtained at a general election. It is my thought that the question should be submitted to the people at the next election to be held in November of this year.

STATE INSTITUTIONS.

There has been submitted to me a report of the Department of Institutions and Agencies. It is not my purpose at this time to go into the subject matter of the report except to say that there is recommended the raising of \$16,000,000 to rehabilitate the institutions of the State and to provide the necessary extensions and additions. We, therefore, have this situation confronting us:

For completing of the State Highway System there will be needed :	\$30,000,000
For the Inter-State Bridge and Tunnel,	28,000,000
State Institutions,	16,000,000
Total,	\$74,000,000

One of the projects herein discussed, viz., the rehabilitation of the State institutions, is admittedly not self-supporting. The moneys necessary to pay the retirement charges and interest upon the proposed bond issue will have to come out of the State treasury. The method more lately pursued in issuing bonds is to place them upon a serial basis. Each year, therefore, the State will have to make provision for the retirement of some part of the principle and for the interest charges upon the whole issue remaining outstanding.

The State Highway system is likewise not self-supporting. If bonds are issued to carry on that work, the State will also be under the necessity of appropriating annually for interest and retirement charges. It may be that the license fees for automobiles can be increased so as to provide additional revenues from which sufficient moneys might be realized to retire these bonds.

The Inter-State Bridge and Tunnel proposition, it is expected, will be a self-supporting one. However, we cannot rashly jump to the conclusion that in the early years of operation enough will be realized from the tolls to pay operating expenses and leave sufficient to meet interest and retirement requirements of that bond issue. Therefore, for the first few years of the bridge and tunnel operation it may be necessary to raise by taxation some part of either the cost of operation or bond requirements unless motor vehicle funds can be devoted to that purpose.

What are we to do about it? Shall we at a time when the people are already overburdened with cost of government load upon their backs an additional heavy burden? If the State had made proper provision during past administrations for the State institutions and if the people had been acquainted with the facts concerning the lack of sufficient moneys for the high-

ways and adequate provision had been made for the actual cost thereof, we would not now be confronted with the problem of dealing with the three emergencies. It is my view that in this particular situation it is time to put on the brakes and go slowly. The present burdens of the people are such that in my judgment if they are asked to provide for all three there is no chance of any of them being acted upon favorably.

My thought as to the priority or preference of the projects in their claims upon the pocketbooks of the taxpayers is as follows:

1. The Inter-State Bridge and Tunnel must be set under way at once. That question should be submitted, as I have stated, to the voters at the 1920 election.

2. The request of the Department of Institutions and Agencies certainly appeals to our sympathies. The State's unfortunates should have every care and comfort which can be given. But I cannot be expected to recommend the pledging of the State to an obligation of \$16,000,000 until I have had full opportunity to investigate the matter. The report of the Department of Institutions and Agencies came to me about two weeks ago. Many matters press upon me for my attention. Between now and the adjournment of the Legislature I shall give the request earnest consideration. I suggest that the appropriations committees commence at once to study the report. They are familiar to a certain extent with the subject matter. The present session should not be allowed to close without some relief being extended.

3. The State Highway System can safely wait until next year. Apparently with the money in hand and to be collected under the "Edge Road Tax Act" the Highway Department has mapped out a complete program for 1920. No delay can ensue, therefore, in the carrying on of the highway construction work by postponing action concerning the method of raising the necessary moneys. Pending the next Legislature, the matter can have consideration by all interested with the view of devising a plan of obtaining the necessary funds which will not be burdensome upon the people.

I have dwelt at this length upon the subject matters hereof for the reason that I want the people of the State to understand what they are facing, with the idea that discussion of the matter will bring forth helpful suggestions.

TAXATION.

Before closing I want to advert to the report made by the Commission to Investigate the Tax Laws of this State. That commission was appointed in pursuance of Joint Resolution No. 1 of the 1919 session of the Legislature. Its principal recommendation is that the personal property tax be substituted by a tax on income and a tax on business. I am opposed to that suggestion. The suggestion may possess merit—however, those who advocate it should be made acquainted with the experience of the municipalities under the acts which were passed for the benefit of the utility corporations of this State, substituting for the personal property tax a tax on their gross receipts. It is my understanding that the municipalities of this State under those acts lost in revenue in 1919 \$257,140, of which sum the Public Service Corporation and its underlying companies saved \$184,559, the difference being represented by savings of the remaining utilities of this State.

I recommend that the two acts in question, being Chapter 148 of P. L. 1918, and Chapter 25 of P. L. 1919, be repealed. A bill to carry out this recommendation will be submitted to you.

I am also opposed to the disturbance of our tax system. We are in a period of transition, so to speak. The economic situation is disturbed and agitated, and until we have passed through the reconstruction period I think it would be unwise to change radically our methods of distributing the burdens of government. I am not in opposition to correcting such routine matters as are covered by the other recommendations of that commission, and if bills carrying out those recommendations are presented I will be glad to give them my earnest consideration.

Respectfully submitted,

E. I. EDWARDS,

Governor.

Secretary to the Governor.

BE IT RESOLVED *by the House of Assembly of the State of New Jersey* (the Senate of the State of New Jersey concurring):

WHEREAS, Recent disclosures during the war have shown that the bulk of the insurance business issued in this country has been issued and controlled by foreign insurance companies, and

WHEREAS, It appears that the security and deposits required under the existing insurance laws of the State of New Jersey are totally inadequate to protect the policy holders in the event of a great conflagration, and

WHEREAS, It further appears that the present insurance laws of this State are inequitable in a good many features to the policy holders, and

WHEREAS, It appears the issuance of a valid insurance policy would be more equitable and just to the policy holders and would give them more protection than the law now affords, and

WHEREAS, The value placed upon a piece of property should be first settled at the time of the issuance of the policy rather than by a law suit afterwards;

Therefore, be it resolved, That the committee on insurance of this House or any subcommittee, and a like committee of the Senate, may be appointed and designated as a committee to investigate this question thoroughly with the object in view of preparing such legislation as may be advantageous and necessary to promote the advancement of domestic insurance companies and at the same time insure better protection to the policy holder, and

Be it further resolved, That this committee may be authorized to sit during the session of the House and that they may have full authority to compel the attendance of witnesses by subpoena and to send for persons and papers by appropriate subpoena and that the committee may be further authorized to administer oaths to witnesses.

Total,	428

It will be observed there are sixty-two departments, boards or bureaus with 428 persons administering their affairs. It should be clearly understood that the foregoing list is not in-

tended to include employees of the various departments named but only the commissioners or members of boards at the head of such departments. How many employees there are is beyond my ken. Perhaps only Divine Providence knows that.

It must also be understood I make no criticism of the unselfish patriotic service furnished by many of the men and women serving upon some of the Boards in question—for they are not compensated.

But in the name of real efficiency I desire to record my protest against the further continuance of such a system. Were the members of those Boards to be assembled in one place they would make a fair-sized village. I doubt whether the Supreme Court which changed the map of Europe at Versailles could compare in size.

The Boards or Departments which were created as the result of the "Efficiency and Economy" legislation of the past administration are: Commerce and Navigation, Conservation and Development, Health, Shell Fisheries, Institutions and Agencies. They consist of eight members each—unsalaried. To the Conservation and Development Board there seems to be an auxiliary committee of thirty-three persons.

Under the Board of Institutions and Agencies there are sixteen Boards of Managers—one for each of the institutions aggregating ninety persons.

What the duties of the auxiliary committee are, I am sure I don't know. So far as I can find, its existence is not authorized by law. I am not aware that it ever recommended any policy with respect to the State's natural resources. Uncharitable persons might suggest that its creation was in furtherance of the desire of its creator to build up a personal political machine.

With respect to the Boards of Managers of the State Institutions, I am informed their chief function is to meet once a month and listen to reports concerning various unimportant details. They have no power and are managers in name only. All control and authority are vested in the Board or Department of Institutions and Agencies. Likewise the suggestion might be made that their official life has never been terminated for the same reason.

There would seem to be no justification for continuing either the auxiliary committee of the Department of Conservation and Development or the Boards of Managers of State Institutions.

This brings me, now, to consideration of the advantages of diffused authority and responsibility vested in separate Boards of large membership serving without compensation as compared with the benefit of concentrated authority and responsibility in a single Board composed of members who are paid for their services. To state the proposition it seems to me is sufficient argument in favor of the latter method.

The matters handled by the so-called "Efficiency and Economy Boards" are of great importance and involve large sums of money. Their proper treatment should not depend upon the uncertain element of enthusiasm or patriotic impulses of the State's agents, which necessarily leads, it seems to me, to spasmodic and intermittent attention, contingent upon the private engagements of the members of such Boards. The discharge of the State's administrative affairs should be in the hands of a reasonably small number of men, paid well for their service and from whom attention to its business may be demanded by the State as a matter of right, under the pain of dismissal for neglect.

Bills to accomplish part of that program have been introduced. They substitute a paid Board of five members for 166 persons, some of whom are paid and some not. They represent a beginning. With the knowledge gained from the experience of such a Board, we will be in position next year to suggest further reforms in the administration of the State's business.

I urge upon you the passage of those bills.

A message was received from the Governor, by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,
TRENTON, March 29th, 1920. }

Gentlemen of the Legislature:

The present legislative session is now drawing to a close. Up to date there have been presented to me for approval approximately sixty bills. None of them, with the exception of the one which defines the State's policy with respect to prohibition, bear on any subject of importance to the people of this State. You have before you for consideration measures of considerable moment to the people of this State. As yet those measures have not been reported out of committee. I refer particularly to the legislation dealing with the utility situation.

In the last campaign for the office of Governor it became manifest beyond question that there was a lack of public confidence in the Board of Public Utility Commissioners, predicated upon the conduct of that board in dealing with the trolley fare increases. It is not my purpose to herein discuss the record of those proceedings. I assume it is sufficiently fresh in your recollection to impress upon you the desirability of action. If it is not, I would suggest that you confer with the members of the Legislature from Camden County, who will be able to tell you of the riotous scenes that marked the attempt to enforce the rulings of the Board of Public Utility Commissioners with respect to trolley fares. The situation that existed in Camden County was in more or less degree duplicated in other parts of the State.

I was so impressed with the public attitude on this matter that I promised I would do everything I could to remedy the situation. I believe in keeping promises. It is my judgment that the march of social unrest cannot hope to be stayed if the people are allowed to believe that their public administrators cannot be

trusted to keep, when in office, the pledges made to secure that office.

Nor can the faith of the people in the integrity of their public servants be preserved if legislation designed to protect their rights, which are necessarily adverse to those of great corporate interests, is allowed to die in committee without a chance of its merits being openly discussed on the floor of the Legislature.

Assembly Bills Nos. 48, 49, 50 and 51 by Mr. Gaede, were introduced as evidence of my intention to keep faith with the people. They provide for a new utility board of three, to be elected and for a commission to value the properties of the utilities.

They should be passed at once. If it is the will of the Majority Party not to pass such legislation, then the bills should be defeated, so that there may be no misunderstanding in the public mind where the responsibility lies.

The city of Jersey City has filed with me as Governor charges of misconduct in office and neglect of duty against the members of the Public Utility Commission.

The charges disclose a condition of affairs in reference to the public utility law and its administration of which I was not previously aware, and which demands the careful consideration of the Legislature, irrespective of whether the commissioners are responsible for these conditions, or whether they are due to the defects in the original law which have been developed by the administration of the law, or by the effect upon such administration of the decisions of our courts.

The matters which should thus be considered by the Legislature are, among others, the following:

1. The law should make clear whether it is the legislative intent that the commission should be a court before which proceedings in relation to public utilities should be tried out, or whether the board is to act primarily and principally as the representative of the public in fixing and enforcing the public rights with relation to our public utility corporations.

If the Legislature determines that the latter course is the object to be obtained, as I think it should, then the Legislature

should enact the necessary legislation to make clear that purpose and should make the necessary appropriations to carry it out.

2. The decisions of the courts have left many provisions of the law in doubt, which the Legislature should clear up by appropriate legislation. It appears to be uncertain, for example, under what conditions the provisions of the law delaying the putting into effect of any increase in rate for twenty days applies. In at least one case the court has held that it did not apply. If any such provision is to exist in the law there should be no doubt of its application.

Another plain defect in the law is the provision limiting the power of the Board to suspend rates filed or fixed by any utility for three months, pending an investigation and hearing. It appears that this provision operates to the disadvantage of the public. Whenever an application is made for an increase, because in such cases the utility corporation puts in its case first and absorbs so much of the three months that too little time is left for the proper investigation of the Board of the company's evidence, or for the proper presentation of other evidence by intervening municipalities. It appears that in several of the cases the time has been extended by consent of the corporation involved.

It is intolerable that the law should be so trained as to leave the proper presentation of the public side of these great controversies dependent upon the grace of any corporation. The law should provide that the time during which the rate should be suspended should be within the discretion of the Board.

3. Another important defect in the law appears in its failure to clearly include within the jurisdiction of the Board holding companies such as the Public Service Corporation. This corporation holds stock of the three great subsidiary corporations, the Public Service Railway Company, the Public Service Gas Company and the Public Service Electric Company. These subsidiary corporations perform the great bulk of the public utility service rendered to the people of our State. It is obvious that in ascertaining the facts necessary to establish just and reasonable rates to be charged by these subsidiary companies, the Commission should have access to the books of the Public Service Cor-

poration, which is the stock holding company, and which receives the dividends earned by the subsidiary corporations.

It is obvious that much information which ought to reach the public can be concealed by means of corporate action of the Public Service Corporation, and both receipts and disbursements can be kept from the public knowledge through the medium of the holding corporation, and such receipts and disbursements are a part of the information which the Board of Public Utility Commissioners should have before attempting to fix a just and reasonable rate for either of the subsidiary companies.

The question of permitting a holding company at all should be considered as a part of this problem.

4. The decision of the courts holding that the Public Utility Commission can disregard municipal ordinance contracts made by public utility corporations appears to have created great confusion as to the legal status and rights of these corporations and of the public. As these decisions are based upon court interpretations of the meaning of certain provisions of the act, and no language in the act expressly sustains the court's interpretation, the extent to which these ordinance contracts have been swept away by the Public Utility statute of 1911 is left in doubt, and without some action by the Legislature can only be guessed at, until future litigation shall lead to further expressions of opinion by the court as to the meaning of the act.

Under these ordinance contracts the public utility corporations have claimed and still claim perpetual rights in the streets, and in rate cases seek to set up and capitalize this great privilege as a property right of great value. In the Passaic Gas case, decided prior to the decision of the court, this right under the term of "franchise value" was appraised by the Board at one-third of the total value of the tangible value of the property. As these rights in the streets were granted by the State and the municipalities in consideration of agreements recited in the ordinance contracts to be performed by the companies, such as a limited rate of fare, special rates for children, obligations to pave and sprinkle parts of the streets and to remove snow therefrom, and to pay a percentage of gross receipts, it would

seem to be fair that, if the companies are to be relieved from their obligations under these ordinance contracts, it should be only upon condition that they either surrender to the State the privileges which were granted to them upon the consideration of these obligations, or that the relations between them and the public should be redefined in the form of a new agreement or in the form of conditions to be established on behalf of the public by the Commissioners.

It seems to me plain that we can have no intelligent administration of this great utility subject until we can establish definitely by law the extent of the rights and the extent of the obligations of both parties to the controversy.

This is clearly a matter that belongs to the province of the Legislature and it is its duty to devise new legislation to remove the cloud of uncertainty and doubt which now surrounds and obscures this whole branch of the subject.

5. It appears that in rate cases the public utility corporations have submitted and been allowed valuations of physical and tangible property many times the valuation contended for by the same companies and fixed by local boards of assessors for the purposes of taxation. Our taxing statutes require all property to be assessed at its true value. If the true value of the present time is to be taken by the Board and by the courts as the amount upon which the company is entitled to earn a fair return in each case, then it is obvious that the value for taxation and the value for rate making should be the same. To have the State, through one of its agencies, fixing the true value of property in one proceeding at one figure, and then in another proceeding, through another agency of the State, fixing another value three or four times as great, and this discrepancy each time working to the advantage of the corporation concerned, tends to impair public confidence in the administration of law.

If there is to be a different value for taxation than that adopted for rate making, that difference should be defined by law.

I would suggest that the committee of the House of Assembly which has the utility legislation in charge arrange to confer with

the Attorney-General for the purpose of having him draw necessary bills to carry out the foregoing recommendation. Such bills, of course, should not interfere with the passage of the Gaede bills. Neither will they interfere with the trial of the Utility Commissioners upon the charges preferred against them. While the time for the introduction of bills has expired, the subject is important enough to justify the introduction and passage of such legislation at this session.

If I can be of assistance to the committee, I shall be glad to hold myself in readiness to confer with it.

(Signed) EDWARD I. EDWARDS,

Attest:

Governor

J. HARRY FOLEY,

Secretary to the Governor.

On motion of Mr. Hershfield, the message was ordered spread in full upon the Minutes.

A message was received from the Governor, by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,

EXECUTIVE DEPARTMENT,

To the House of Assembly:

March 29th, 1920.

I return herewith, without my approval, Assembly Bill No. 251.

The effect of this bill is to transfer a part of the town of Franklin, in Bergen county, to the borough of Midland Park.

The principal objection that I have to this bill is that the people affected thereby are not given an opportunity to express their wishes in the matter. Governed now as part of a town under the bill in question, there is forced upon them borough government. They had no voice in the selection of the officers now administering the affairs of the borough of Midland Park.

It seems to me the measure is arbitrary and undemocratic.

Respectfully,

EDWARD I. EDWARDS,

Attest:

Governor

J. HARRY FOLEY,

Secretary to the Governor.

A message was received from the Senate, by the hands of its Secretary, as follows:

STATE OF NEW JERSEY,
SENATE CHAMBER,
March 30th, 1920. }

Mr. Speaker:

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill:

Committee Substitute for Senate Bill No. 85, entitled "An act to acquire by gift, devise, grant, purchase or condemnation, the toll roads and toll bridges situated entirely within this State, and providing for the cost thereof,"

The objections of the Governor thereto notwithstanding.

In which the concurrence of the House of Assembly is requested.

WM. H. ALBRIGHT,
Secretary of the Senate.

Mr. Hershfield moved that the objections of the Governor be entered in full on the Minutes and the bill lie over.

Which motion was adopted.

March 24th, 1920.

To the Senate:

I return herewith, without my approval, Senate Committee Substitute for Senate Bill No. 85.

This bill authorizes the State Highway Commission to acquire three toll roads, as follows:

1. Gloucester turnpike, owned by the Gloucester Turnpike Company, Camden county.

2. Marlboro and Camden turnpike, owned by the Marlboro and Camden Bridge Turnpike Company.

3. Bridgeton and Millville Turnpike, owned by the Bridgeton and Millville Turnpike Company.

It further authorizes that commission to acquire three toll bridges; one from Somers Point, New Jersey, to Ocean City, owned by the Ocean City Automobile Bridge Company, Inc.; the second, the Long Beach Automobile Bridge, from Manahawkin to Island of Long Beach, owned by the Long Beach Turnpike Company; the third, Toms River and Seaside Heights Automobile Bridge from Dover township to Seaside Heights, owned by the Island Heights and Seaside Park Bridge Company.

The bill further provides that the said toll roads and toll bridges, when acquired by the State, shall become a part of the State Highway System.

My objections to this bill are:

First, the Legislature is not advised by it how much money will be required to purchase or condemn the properties in question.

Second, the State Highway Commission will require to complete the original program as outlined in the Edge Road Act approximately thirty million dollars, and until some method or plan is devised for raising those moneys, I do not believe the State should extend the highway system; in other words, I think we should have a clear understanding of how the people are to be expected to shoulder the burden of raising the thirty million dollars in question before we add any more to that burden.

Furthermore, I think the cost of acquisition might more fairly be placed upon the localities in which such properties are situated. When acquired, the State might then be asked to improve or assist in improving the roads and bridges.

Respectfully,

EDWARD I. EDWARDS,

Governor.

Attest:

J. HARRY FOLEY,

Secretary to the Governor.

STATE OF NEW JERSEY,
SENATE CHAMBER,

Mr. Speaker:

March 31st, 1920. }

I am directed by the Senate to inform the House of Assembly that the Senate has passed the following bill:

Senate Bill No. 233, entitled "An act to consolidate the department of motor vehicle registration and regulation with the office of the Comptroller of the Treasury,"

The objections of the Governor thereto notwithstanding.

In which the concurrence of the House of Assembly is requested.

WM. H. ALBRIGHT,
Secretary of the Senate.

On motion of Mr. Hershfield the objections of the Governor to Senate Bill No. 233 were ordered spread in full on the Minutes, and the bill laid over.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate:

March 29th, 1920. }

I herewith return, without my approval, Senate Bill No. 233.

Having been elected by the voters of this State, I cannot sit idly by and see an antagonistic Legislature, under the guise of partisanship, take away from the Executive, powers with which the people have entrusted me and give them to a person who was defeated for the office to which I was elected.

It is well known that the Governor appoints the Secretary of State, and that he, in turn, ever since the Department was established, has appointed the Commissioner of Motor Vehicles.

The Motor Vehicle Department, as at present constituted, is under the direction of the office of Secretary of State. The Commissioner of Motor Vehicles, in direct charge of the Department, is Assistant Secretary of State. At present he receives \$3,000 per annum as Assistant Secretary of State, and \$1,500 per annum as Commissioner of Motor Vehicles, making a total salary of \$4,500.

The department has grown to be one of the most important in the State, entailing not alone the filing of extensive records, but the collection of large sums of money, the direction of a large inspection force and the administration of certain judicial powers.

This bill is a bill to wrest from the Governor of this State, elected by the people, powers which were his at the time of his election.

It is true that the Secretary of State appoints the Motor Vehicle Commissioner, but it is also true that the Governor of this State appoints the Secretary of State, and when I was elected and my opponent was defeated, that was the situation. It cannot be that the people of this State are willing to see, without protest, their will, as expressed at the polls, frustrated. Independent of economic and other reasons, the fact stares out plainly that this bill deprives the Governor of the State of New Jersey, elected by the people, of powers inherently his, and transfers them to a defeated candidate.

I have no personal interest in these matters, nor am I concerned by any petty party consideration, but I know that I was elected by the people of this State; I know that this bill attempts to shear from me powers delegated to me by the people of this State, and I return it without my approval because I regard it as the baldest, most indefensible and inexcusable piece of partisan legislation.

I can see no efficiency or economy in removing an admittedly efficient official.

Respectfully,

EDWARD I. EDWARDS,

Governor.

Attest:

J. HARRY FOLEY,

Secretary to the Governor.

A message was received from the Senate, by the hands of its Secretary, as follows:

Memorials were presented as follows:

April 1st, 1920.

To the Honorable Members of the House of Assembly of the State of New Jersey:

At a meeting of the Board of Commissioners of the City of Newark held this day representatives of civic associations appeared with reference to the present housing conditions in this community and appealed to the officials of the City of Newark

to aid them in urging favorable action by the State Legislators of Assembly Bills 163, 358, 365, 452 and 455.

A motion was unanimously adopted by the City Commissioners to the effect that this memorial be forwarded by the City Clerk to your honorable body, and that we respectfully urge favorable action for the proposed legislation.

This is most respectfully submitted to you for serious consideration.

Very truly yours,

(Signed) W. J. EGAN,
City Clerk.

April 1st, 1920.

At a meeting of the Board of Commissioners of the City of Newark held this day Assembly Bill No. 370 was brought to the attention of the city officials by several of our citizens and a strenuous protest filed against interference with our internal government.

This bill provides that the operation of jitneys will be under the control of the Public Utility Commission.

A motion was unanimously adopted by the City Commission opposing the passage of this bill and the City Clerk was directed to forward this memorial to your honorable body to that effect.

This is most respectfully submitted to you for serious consideration.

Very truly yours,

(Signed) W. J. EGAN,
City Clerk.

On motion of Mr. Whalen, the memorials were received and ordered filed.

The Fourteenth Annual Report of William L. Dill, Commissioner of Motor Vehicles, was received and ordered filed.

A message was received from the Governor, by the hands of his Secretary, as follows:

April 5th, 1920.

To the House of Assembly:

I return herewith, without my approval, Assembly Bill No. 29, being an act to incorporate the borough of Bellman, in the county of Bergen. My objections to this bill are these:

It sets off from the present borough of Fairview a portion thereof and provides that it shall be a separate borough. No opportunity is given to all the inhabitants of the present borough of Fairview to express their views in the matter, inasmuch as

the referendum is confined to the voters of the territory so set off.

Further, my view is that there are sufficient municipalities in the county of Bergen, and I am opposed to the creation of any more, as they lead to duplication of effort and expense.

Respectfully,

(Signed) EDWARD I. EDWARDS,

Governor.

Attest:

J. HARRY FOLEY,

Secretary to the Governor.

On motion of Mr. Hershfield, the message was received, ordered spread in full upon the Minutes, and the bill to lie over.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the House of Assembly:

April 5th, 1920.

I return herewith, without my approval, Assembly Bill No. 71, being a supplement to the act creating the Department of Commerce and Navigation.

The purpose of this proposed act is to require the Department of Commerce and Navigation to grant, without the payment of consideration therefor, the State's rights in lands now or formerly under tide water to either the State Highway Commission or any board of freeholders, when deemed necessary by the latter to construct a bridge to pass over such lands.

In the first place, I doubt the constitutionality of this measure.

Respectfully,

EDWARD I. EDWARDS,

Governor.

The board of trustees shall retire said member at the time specified or at such other time within thirty days after the date so specified as the board of trustees may find advisable. Any present-entrant who is not covered by the tenure of office law who prior to the first day of November, one thousand nine hundred and nineteen, shall become a member of the retirement system, and who shall be credited in his prior-service certificate with thirty-five or more years of service, who shall lose his position before attaining the age of sixty-two (62) years, shall be retired on a total retirement allowance of one-half of his average salary; *provided, however*, that any present-entrant, irrespective of his or her age, who so desires, and who has had thirty-five years of service as a teacher to his or her credit, the last twenty-five years of which service shall have been performed in this State, shall be retired from active service, and shall receive all the benefits of this act as now provided for members over the age of sixty-two (62) years as if said member were over the age of sixty-two (62) years.

(2) After the first day of January of the year nineteen hundred and twenty-six, each and every member who has attained or shall attain the age of seventy (70) shall be retired by the board of trustees from the service forthwith, or at such time within a year thereafter as it shall deem advisable.

(3) Upon superannuation retirement a present-entrant shall receive a retirement allowance which shall consist of:

(a) An annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement,

(b) A pension in addition to the annuity of one one-hundred and fortieth ($1/140$ th) of his average salary multiplied by the number of years of service he has rendered since he became a member,

(c) A further pension of one-seventieth ($1/70$ th) of his average salary multiplied by the number of years of service certified on his prior-service certificate,

(d) And if such person shall have been a member of the Teachers' Retirement Fund prior to his becoming a member of the retirement system, a further additional pension which shall be the actuarial equivalent of the contributions without interest, which he paid to the Teachers' Retirement Fund prior to the first day of September, nineteen hundred and nineteen, which he has not otherwise received.

(4) Upon superannuation retirement a new-entrant shall receive a retirement allowance which shall consist of:

(a) An annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement, and

(b) A pension, in addition to the annuity, of one one-hundred and fortieth ($1/140$ th) of his average salary multiplied by the number of years of his total service.

(5) The total retirement allowance granted to a person with twenty or more years of service who has attained the age of sixty-two (62) shall in no case be less than four hundred dollars per annum.

(6) Retirement for disability of a teacher who is a member shall be made by the board of trustees upon the application of his employer or upon his own application or that of a person acting in his behalf, on a disability allowance if he is under the age of sixty-two (62) years, provided the board of trustees, after a medical examination of said member, made at the place of his residence within the State or other place mutually agreed upon, by a physician or physicians designated by said board, shall de-

termine upon the basis of a report submitted by said physician or physicians that the said member is physically or mentally incapacitated for the performance of duty and that said member ought to be retired; *and further provided*, that the said member has rendered ten years of service as a teacher in New Jersey, and if he is a new-entrant, has also been a member of the retirement system for ten years.

Should the applicant for a disability retirement be dissatisfied with the decision of the board of trustees, appeal may be made to the State Board of Education and the decision of the latter shall be final and binding upon all parties.

(7) On retirement for disability, a teacher who is a member shall receive a retirement allowance which shall consist of:

(a) An annuity which shall be the actuarial equivalent of his accumulated deductions at the time of his retirement;

(b) A pension which together with his annuity provided under the paragraph immediately preceding shall be sufficient to produce a retirement allowance of one-seventieth of his average salary multiplied by the number of years of his total service, but not less than three hundred dollars per annum or thirty per centum of said average salary, with the exception that in no case shall the allowance exceed nine-tenths of the rate of retirement allowance to which he might have been entitled had retirement been deferred until the age of sixty-two (62).

(c) And if such person shall have been a member of the Teachers' Retirement Fund prior to his becoming a member of the retirement system, a further additional pension, which shall be the actuarial equivalent of the contributions without interest, which he paid to the Teachers' Retirement fund prior to the first day of September, nineteen hundred and nineteen, which he has not otherwise received.

(8) Once each year during the first five years following the retirement of the teacher on a disability allowance and once in every three-year period thereafter, the board of trustees may, and upon his application shall, require any disability beneficiary who is under the age of sixty-two (62) years to undergo medical examination by a physician or physicians designated by the board of trustees, said examination to be made at the place of residence of said beneficiary, or other place mutually agreed upon. Should such physician or physicians thereupon report and certify to the board of trustees that such disability beneficiary is not totally incapacitated either physically or mentally for the performance of duty, and that such disability beneficiary is engaged in, or is able to engage in, a gainful occupation, and should

the board of trustees concur in such report, then the amount of his retirement allowance shall be reduced to an amount which, when added to the amount then earned by him, shall not exceed the amount of his average salary. Should his earning capacity be later changed, then the amount of his retirement allowance may be further altered; *provided*, that the new retirement allowance shall not exceed the amount of the retirement allowance originally granted, or an amount which, when added to the amount earned by the beneficiary, exceeds the amount of his average salary. Should a disability beneficiary who is under the age of sixty-two (62) years refuse to engage in a gainful occupation when qualified so to do and further refuses a position in the public schools offered to him, the board of trustees may reduce his retirement allowance to half of its former rate.

(9) Should any disability beneficiary under the age of sixty-two (62) years refuse to submit to a medical examination, as provided under the subsection immediately preceding, his retirement allowance may be discontinued until his withdrawal of such refusal, and should such refusal continue for one year, all his rights in and to such retirement allowance may be forfeited.

(10) Should a disability beneficiary be restored to active service at a salary equal to that formerly received, his retirement allowance shall cease and he shall again become a member of the retirement system, and his annuity reserve shall be transferred from the annuity reserve fund to the annuity savings fund and credited to his individual account as a part of his accumulated deductions in the latter fund, and he shall contribute to the said fund thereafter in the same manner and at the same rate as he paid upon his disability. Upon his restoration to active service his pension reserve in the pension reserve fund shall be transferred to the pension accumulation fund. His prior-service certificate, on the basis of which his service was computed at the time of his retirement, shall be renewed and shall again be in full force and effect, and in addition, upon his subsequent retirement he shall be credited with all his service as a member subsequent to the period covered by his prior-service certificate, anything to the contrary in this act notwithstanding.

Withdrawal and Death Benefits.

(11) A contributor who withdraws from service or ceases to be a teacher for any cause other than death or retirement, shall be paid on demand the accumulated deductions standing to the credit of his individual account in the annuity savings fund.

(12) The board of trustees may, in its discretion, withhold for not more than one year after a member last rendered school-service all or part of his accumulated deductions, if, before he last became a member, he withdrew from the annuity savings fund all or part of his accumulated deductions and failed to re-deposit such withdrawn amount to the credit of his individual account in such fund.

(13) Should a contributor die before retirement his accumulated deductions shall be paid to his estate or to such person having an insurable interest in his life as he shall have nominated by written designation duly executed and filed with the board of trustees.

A message was received from the Governor, by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the House of Assembly: April 21st, 1920. }

I return, without approval, Committee Substitute for Assembly Bill No. 39.

The purpose of this bill is to confer tenure of office upon secretaries of County Boards of Taxation. The present incumbents of such positions, if this bill becomes law, before being discharged from the service will have to be given a trial upon charges. While that policy is no doubt a correct one with respect to many positions, I do not believe it should be made to apply to secretaries of County Boards of Taxation. They occupy a more or less confidential relation toward the members of the board, and in my judgment, in order to secure efficient service, it is necessary to retain in the board power to dismiss the incumbent of such position.

Respectfully,
EDWARD I. EDWARDS,

Attest: Governor.

J. HARRY FOLEY,
Secretary to the Governor.

Mr. Hershfield moved that the Governor's message be received, spread in full on the Minutes, and that the bill lie over.

Which motion was adopted.

A message was received from the Governor, by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the House of Assembly: April 21st, 1920. }

I return, without approval, Assembly Bill No. 115, being a bill to amend section 605 of the Revised Tax Act of 1918. The effect of this amendment is to require municipalities in school districts in which appropriations are made by Boards of School Estimate to pay the county, local, school and State taxes as and when due for payment. In other words, the school fiscal year commences July 1st, 1920. The amounts of the appropriations are therefore due upon that day. The first half of the taxes assessed to raise such appropriations do not become due until

April 1st, and do not become delinquent until June 1st. A small portion, comparatively speaking, of such taxes is therefore collected in time to be used for meeting the educational appropriations. The result is to require the city to borrow money upon temporary notes or bonds. The present practice is to simply pay enough money to the Board of Education during the summer period, from July to October, to meet the requirements of the salary schedule. Other expenses are not required to be met until school reopens for the fall period, and in the interval there are usually collected enough taxes to meet the situation. This bill would place the unnecessary burden upon municipalities.

Respectfully,

EDWARD I. EDWARDS,

Governor.

J. HARRY FOLEY,

Secretary to the Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT.

To the House of Assembly:

April 21st, 1920.

I return, without approval, Assembly Bill No. 111.

This measure broadens and amplifies the power of the Commissioner of Municipal Accounts. It subjects licensed accountants to regulation by such official and permits the revocation of an accountant's license for failure to make proper audits.

While the bill gives the accountant a chance to have the Commissioner's determination reviewed, the proceedings, which are upon affidavits, do not give full opportunity for the accountant to demonstrate his innocence. A situation might arise where he could not secure the voluntary affidavit of some witness, and under those circumstances, he should have the chance to subpoena witnesses and take proofs.

Respectfully,

EDWARD I. EDWARDS,

Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT.

To the House of Assembly: April 21st, 1920.

I return, without approval, Assembly Bill No. 262. This is the bill which revises the present Election Law. It consists of two hundred and thirty-three printed pages. I have had but five days within which to make any examination of this measure and have been handicapped to some extent by having to dispose of some two hundred other bills.

So far as I can find from my examination of the measure, the principal changes made by the bill will take from the Governor his present control over the appointment of County Boards of Election, and will create a new form of ballot. The new ballot, while it has been improved, I think, as the result of the Senate amendment, does not present an improvement in any system of voting. It facilitates the voting of straight party tickets, and in my opinion makes it difficult for the expression of independent thought. The present ballot and the present election law, have been found to work satisfactorily, and I do not believe there is any need of making such radical changes. There has been no public demand for any such change, and I am convinced the people are satisfied with the present system.

Respectfully,

EDWARD I. EDWARDS,

Governor.

I return, without approval, Assembly Bill No. 336. This bill amends the Public Park Act applying to Essex county so as

to permit any member of the park police force to resign from the department and to receive upon such resignation the return of all assessments paid into the Pension Fund. It seems to me the policy is a mistaken one.

Furthermore, the bill provides that there shall be annually paid to the Pension Fund a sum equal to at least five per cent. of the aggregate salaries paid to said police force, which moneys are taken from the appropriation made by the county to the Park Commission. I think the amount is excessive.

Respectfully,

EDWARD I. EDWARDS,

I return, without approval, Assembly Bill No. 357. This bill invests the State Highway Commission with power to acquire lands and erect thereon piers or docks for the landing of boats plying between Cape May City and Lewes, Delaware. Further power is given to the High Commission to purchase and operate boats to transfer passengers and vehicles between these points.

One of the evils following upon the creation of the State Highway System, it seems to me, is the desire of localities to have improvements which are provincial or parochial in their nature made as a part of the highway system, so that the expense thereof will be borne by the State at large and not fall upon the shoulders of those who are peculiarly and particularly benefited. This bill is a typical illustration of that.

Section 3 of the proposed act prescribes a penalty for violations of its provisions. Such legislative intent does not appear in the title, and for that reason I believe the bill is defective.

I return, without my approval, Assembly Bill No. 536. It is an amendment of the Act of 1915, applying to cities fronting upon navigable waters. There is a minor error in the bill in page 2, section 2, line 2, where "1916" should read "1917."

The principal change made by this proposed act is to give to such municipalities power to sell such lands at private sale. The policy of the State the past few years has been to permit municipalities to sell only those lands which are not needed for public use, provided the sale be held publicly.

I am opposed to any departure from that policy.

Which motion was adopted.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate:

April 21st, 1920.

I return, without approval, Senate Bill No. 177. The effect of this measure is to authorize the Passaic Valley Sewerage Commission to have work done upon the project which it is authorized to carry out without limitation in cost and without securing bids as the result of public advertising. The settled policy of the State for many years has been to require that contracts be let as the result of competition obtained through the medium of public advertising, and I am strongly opposed to any departure from that method. Of course, I must not be understood as intending to reflect upon the integrity of the gentlemen who are serving upon the Passaic Valley Sewerage Commission.

Respectfully,

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate:

April 21st, 1920.

I return, without approval, Senate Bill No. 203. The bill, in my judgment, is an improper exercise of legislative power in that it

deprives one of the State departments of the opportunity of exercising any discretion as to the propriety of reimbursing counties which may have gone to expense in improving part of the State Highway System. Even if the claim of any such county be a proper one, I see no reason why the hands of the State Highway Commission or its successors in office should be tied and they should be thereby prevented from investigating into the merits of any such claim.

Respectfully,

Which motion was adopted.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate:

April 21st, 1920. }

I return, without approval, Senate Bill No. 282, being "An Act Providing for the Valuation of Street Railway Property in this State."

This bill, as I understand it, was passed as a substitute for Assembly Bill No. 51, introduced by Mr. Gaede, of Hudson County. Both measures were called into being as a result of the public demand, in the last campaign for Governor, that properties of public utility companies should be appraised—it having been made to appear that the charges of such companies were increased without such valuation having been made.

The majority party in the House saw fit to defeat the Gaede bill, and the bill now returned is the only measure designed to meet the public demand which the majority party permitted to pass.

I am anxious, of course, to have some legislation which will produce an immediate valuation of public utility property. I am forced, however, to return this bill unapproved, for these reasons:

First, the bill is limited in its application to the valuation of street railway property, therefore the properties of the Public

Service Gas Company, the Public Service Electric Company, and other similar utilities would escape valuation.

Second, the scope of the investigation and valuation under the bill in question is limited to the physical property. If that is not so the best that can be said for the language defining the scope of the investigation is that it is vague and indefinite—Section one providing for a commission “for the purpose of ascertaining and determining the value of all the property, including every proper and lawful element thereof,” etc. The Gaede bill, Section Nine thereof, provides for “the ascertainment and determination of the value of all the property of any or all public utilities and the ascertainment and determination of the amount of moneys or other thing of value actually invested in the property owned, leased or controlled by said public utility and as well the amount of capital stock, bonds, scrip, certificates of indebtedness, notes or other securities or obligations issued by said public utility or by any lesser subsidiary, predecessor or underlying company, and the amount and character of the consideration received or paid therefor.”

Contrast the definite, specific direction contained in the Gaede bill with respect to the extent and scope of the inquiry to be made, with the litigation-creating language of the bill now returned, and you will understand why I cannot approve this measure. Instead of authorizing an investigation into the issuance or alleged issuance of stock and bonds without consideration, this bill limits the investigation to the valuation of the utility property. Just what is meant by the phrase, “including every proper and lawful element thereof” I do not know, but it is an invitation to litigation.

Third, this bill, instead of creating an independent Board, as the Gaede bill does, provides for a Commission, consisting of the Governor, the State Treasurer and the State Comptroller. Of course, it is not the result of design, but it might develop, if this bill became a law, that the Governor, under Paragraph 8 of Article 5 of the Constitution, would have to decline to serve on the Commission. The result would be that the administration of the powers conferred by this bill would rest with the State Treasurer and State Comptroller only.

There is an additional reason for withholding my approval of this bill, to which I hesitate to refer, but nevertheless I feel that I must. It is this. The issue as to whether the important public affairs of this State were to be administered by the Democratic or Republican party was presented to the people at the last election. One of the questions involved in that contest was

the matter of public utility charges and their regulation. I regard the result of the last Gubernatorial campaign as an expression on the part of the people that they desire the present incumbent of the Governor's office to be vested with the power and authority to cause this valuation to be made.

This measure frustrates such expressed desire.

Respectfully,

EDWARD I. EDWARDS,

Governor.

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the Senate:

April 21st, 1920. }

I return, without my approval, Senate Bill No. 305. I do not approve this bill for the following reason:

Its purpose is to give the judge of the Common Pleas Court of any county bordering upon the Atlantic Ocean a salary increase—in such amount as the Supreme Court Justice sitting in that locality may regard as reasonable, but not exceeding thirty-three and one-third per cent. of the present salary.

The bill confers upon the judiciary powers which are purely legislative—the fixing of salaries of State officials.

Respectfully yours,

EDWARD I. EDWARDS,

A message was received from the Governor at the hands of his Secretary as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

Gentlemen of the Legislature:

April 28th, 1920.

The hour of the adjournment of the Legislature of the State of New Jersey for the present session being at hand, it seems well to call your attention publicly to some matters of great interest to the citizens of this State, rather than to wait until the adjournment of your honorable body has occurred and then indulge in profitless criticism of the failure of the Legislature to adopt constructive or corrective measures.

I notice from the record of the Legislature that little or nothing has been done toward passing laws which might, in some degree at least, relieve the housing situation. It seems to me that honest and industrious people who find themselves with no roofs over their heads may well indulge in a feeling of unrest and dissatisfaction with the government which is so impotent to deal with their needs. There are some ways in which this matter could be dealt with by the Legislature that I think would in some measure afford a degree of relief and aid our people who are laboring under this very serious deprivation. The condition is caused, as you well know, by the failure of building to keep pace with the needs of the people. In other words the supply does not meet the demand, and under this situation many unscrupulous people are taking advantage of the necessity of the public and promoting the rents to exorbitant figures, but I believe that some relief can be extended to the people through the passage of House Bill No. 455, now pending in the Senate. This bill grants power to municipalities to construct homes and to sell and lease them to the people of such municipalities. It is a permissive measure and carries a referendum feature, so that its provisions remain inoperative until assented to by the voters of such municipalities as desire to operate under its provisions.

It may not be the best thing to do, but at least it is a move in the direction of providing a means of meeting the demand for housing accommodations.

I urge upon you that before you adjourn you pass this or some other bill granting such powers.

2. The public utilities situation also, I think, should meet with more serious consideration than it has had at the hands of your body. The people of this State have made up their minds not to be further exploited by public utility interests so that unfair earnings will be extorted from the people upon watered stock. Under these circumstances, if the Legislature does not pass the bills advocated by me in an earlier message, yet something def-

nite and sincere should be done to meet this situation so that the public will not be at the mercy of manipulators of public utilities stocks. Capital itself, of course, is most essential to the well-being of any people. Capital should be protected and safeguarded in every way that it can be, as well from the unwise legislation springing from the clamor of uninformed people as from the restrictions that would be imposed by economic fad-dists, but there still remains the fact that wise and healthy capital does not need legislative coddling, and the Legislature of this State should see to it that the people of this State are not forced to pay unfair earnings upon the stock of companies which does not represent actual value, and that no subterfuge should be allowed to receive legislation approbation which would lend face to the attempt by certain public utilities corporations to give artificial value to that which has no value. Legislation should be rather enacted that will protect the public and see that only such rates, fares and prices are charged by those dealing in public necessities, such as transportation, heat and light as will represent a fair investment upon capital actually invested and a return upon business sagacity and enterprise. I, therefore, urge that you pass the Gaede valuation measure, introduced at my instance, which could be reintroduced by consent, so that something be done to relieve the situation as it now exists.

While I realize that the Legislature is controlled by the party opposite to that to which I hold allegiance, yet I am eager to work with the Legislature, and distinctly disavow the idea of trying to make political capital out of the unfortunate conditions, which are almost calamitous, and which affect the well-being of our people in many ways. I am quite willing to receive suggestions from the Legislature and to co-operate with them in any way to see if we cannot relieve these conditions. I think it is most regrettable that in such a situation as this the Legislature should adjourn without taking any action. My only desire is to have something done to relieve the situation that I have described and others which will occur to the Legislature without my suggestion. I, therefore, request you, in the name of the people of the State of New Jersey, not to adjourn until some definite action is taken in these pressing matters which surround us and irresistibly demand solution. We are confronted with facts which cannot be escaped by sophistry or by procrastination. What the people of our State demand is action. I will, therefore, ask you whether you regard my suggestions in the line of

action as wise or not, to at least heed the demands which you must know are being voiced by the people of the State to act.

Respectfully,

[SEAL.]

EDWARD I. EDWARDS,

A message was received from the Governor, at the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the House of Assembly:

May 4th, 1920.

I return herewith, unapproved, Second Committee Substitute for Committee Substitute for Assembly Bill No. 416.

It is the bill authorizing the issuance of bonds for New Jersey's share of the cost of constructing the Hudson River Tunnel and the Delaware River Bridge. The bill as originally passed by your body would have proved satisfactory to me. However, the Senate chose to make a radical change in the measure by amending it so as to provide for a State tax. Under the amended bill it will be necessary to levy a tax on all of the property in the State sufficient to realize the moneys necessary to pay the yearly interest on all outstanding bonds, as well as the annual amortization requirements, until such time as the revenues from the operation of the bridge and tunnel shall be sufficient therefor.

Before discussing the practical effect of the language of the amendment, I desire to say that I cannot approve this measure because it is contrary to the position taken by both parties in the recent campaign for Governor. Furthermore, I am opposed in principle to the imposition of a tax as a means of raising the moneys for this project. I believe that the revenues of the State, if economically and judiciously expended, will be sufficient to meet the annual interest and amortization requirements until the tunnel and bridge are on a revenue-producing basis.

It is my opinion that the increased revenue required to meet the interest and amortization requirements can be better and more equitably obtained, if the present revenues of the State are insufficient, by the passage of Assembly Bill No. 468, which bill provides for an increase in the rates of tax chargeable against decedents' estates. This bill was prepared by the Transfer Inheritance Tax Bureau of the Department of the Comptroller of the Treasury, and was introduced by Mr. Evans, of Passaic county, on March 1st, 1920. It is difficult to definitely state the amount of the increased revenue which the passage of this bill would provide, but an estimate of \$1,500,000 appears reasonably conservative.

There is an almost total absence of meritorious objection to this bill, and there is also a positive necessity for its passage. I

personally explained this to the leaders of the majority and minority of the Legislature, and expressed the wish that the bill would receive favorable action.

Furthermore, I fear the defeat of the bond measure when submitted to the people at the coming general election if it is understood that the bill which they are voting on is violative of the pledges made by both parties with respect to the direct tax feature.

It must not be forgotten that in addition to this bond issue the people will be asked to also authorize some twelve or thirteen million dollars for soldiers' bonus bonds. The cost of living of to-day (of which taxation forms no inconsiderable part) is so burdensome that I personally believe the people unwilling to shoulder any more expense. To pass a measure of this kind in the present situation is to invite its rejection by the people.

Coming now to the form of the amendment, I want to call your attention to the confusion that arose following the passage of the Edge Road Tax Act as to whether or not railroad and canal property of all classes was to be subject to the tax. I fear the same question will be raised as to this tax. Secondly, the basis of the apportionment of the tax fails to take into account the vast volume of property which is not subject to taxation for municipal purposes. In that respect the amendment is either unworkable or does injustice to those communities which do not have located within their territorial limits personal property of utility corporations.

Accordingly, I must return this bill without my approval. I regret the necessity of such action, as I regard the improvements in question of tremendous importance, both to North and South Jersey, but, as I have said, to submit this bill to the people means its defeat. It might mean the ultimate defeat of the project, because when once voted on it will be exceedingly difficult, if not impossible, to secure favorable action thereon. For my part, I would rather postpone action for one year and secure a measure which would be acceptable than to submit one which I regard as unacceptable, and have that rejected.

Respectfully,

EDWARD I. EDWARDS,
Governor.

Attest:

J. HARRY FOLEY,
Secretary to the Governor.

Resolved, That the House express to the Hon. W. Irving Glover, its Speaker, the sincere gratitude of its members over the absolutely fair, dignified and thoroughly impartial manner in which he has presided over the session of 1920. It is a matter of great pride among the members of the Republican side of the

House in particular to feel that throughout the entire session the Honorable Speaker has, without exception, conducted the affairs of the House with the utmost regard for one and all alike, and with a demonstration of his fitness to preside that makes for him a warm spot in the heart and affections of the entire membership of this House.

Resolved, That the thanks of the House be and are hereby extended to the Hon. Henry G. Hershfield, leader of the Republican representation in the House, for the capable manner in which he has assisted in the transaction of the important matters that have come before this body for action. And while the sentiment of this resolution will be fully endorsed and approved by the entire membership, it is with especial pleasure for the Democratic members, through their leader, to record their particular gratitude for the absolute fairness and consideration that has been demonstrated by Mr. Hershfield throughout the session. Viewed from the Democratic side of the House, we have found in his entire course the demonstration of a keen sense of responsibility to the people, yet also, with due regard for the party he represents, both of which interests must agree with us that his record as leader represents a conscientious endeavor to serve fully and fairly—a record that prompts this testimonial of appreciation from those who have been his colleagues in the House.

Mr. Hershfield offered the following resolution, which was read and adopted;

Resolved, That we extend the thanks of the House to the Hon. Hugh C. Barrett, leader of the Democratic representation, for the able as well as courteous manner in which he has fulfilled the duties of that position. While at times the views of that part of the House membership opposite to his political faith have not always agreed with those of the distinguished leader, there has never been a period throughout the entire session in which anything but the best of feeling and highest mutual regard was in evidence, and the conclusion of the session of 1920 finds in the hearts of the entire membership that feeling of friendship, love and esteem that cannot but make the Democratic leader feel that he has labored with real men, one and all of whom prize very highly the service he has rendered both his party and the State.

Mr. Hershfield offered the following resolution, which was read and adopted:

Resolved, That the thanks of the House be and they are hereby extended to Upton S. Jefferys, Clerk; James Parker, Assistant

Clerk; Edward L. Blackwell, Calendar Clerk; Joseph G. Carty, Journal Clerk; Sidney Collins and William H. Duffield, Assistant Journal Clerks; William J. Kammerer, Sergeant-at-Arms; William Whittle and George W. Hullings, Assistant Sergeants-at-Arms; George Tuttle, Bill Clerk; Peter K. Tillman, Assistant Bill Clerk; Harold B. Curriden, George Snedicker, Horace Banta, Stenographers, for the efficient and faithful manner in which they have attended to the affairs of the House during the session.

Resolved, That the thanks of the House be and they are hereby extended to George W. Adams, Supervisor of Bills; Joseph Fertig, Walter W. Resolved, That the Speaker of the House and members of 1920 session hereby extend their sincere thanks to John A. Smith, Custodian of the Capitol, for the many courtesies and for the able assistance he has rendered the members during this session. His record of courtesy and attention to the many demands made upon him have demonstrated a most willing spirit and the fullest possible endeavor to help make the duties of the membership the most agreeable possible.

Mr. Hershfield offered the following resolution, which was read and adopted:

A message was received from the Governor by the hands of his Secretary, as follows:

STATE OF NEW JERSEY,
EXECUTIVE DEPARTMENT,

To the House of Assembly:

May 11th, 1920.

There would seem to be no need for me to call your attention to the necessity for action to relieve the present crisis in the housing of the people of our State. Indeed, that you are alive to the urgency of the matter is evidenced by the appointment of special committees of your bodies under instructions to report to you before the present session closes.

I understand bills have been prepared by those committees for introductions to-day. I trust no one will withhold his consent to their introduction or to their consideration as soon as may be possible.

Your special committees are entitled to the thanks of the people of the State for the earnest manner in which they took hold of the problem and for the quick results. Their action is proof of the real need for relief.

I will not rehearse the facts; the conditions are known to everyone; the untoward effects and suffering resulting from the lack of proper housing accommodations are visited upon all the people of the State; the situation is acute and critical. We would be derelict in the discharge of our duty were we to fail to help.

I urge upon you, therefore, that you pass the legislation proposed by the committees.

Attest:

Governor.

Absent—

Messrs. Appleby, Blair, Blizzard, Fooder, Heinzmann, Lyons, Rogers, Rowland, Schultz, Shields, Warner—11.

Mr. Hershfield asked unanimous consent to introduce one bill, stating the object of the bill. Messrs. Wallworth and DeVoe objected to the introduction of the bill.

Mr. Hershfield moved to suspend the special rule of the House which required unanimous consent for the introduction of bills, the suspension to apply only to the bill he proposed to introduce.

Upon the calling of the roll Mr. Hershfield's motion was carried by the following vote:

In the affirmative were—

Messrs. Agans, Baldwin, Barrett, Bowen, Casale, Coppinger, Cross, Dater, Donovan, Finley, Forlenza, Gaede, George, Glover (Speaker), Hansen, Headley, Hershfield, Hyland, Lewis, Muro, Pierson, Siegler, Silver, Stanton, Sullivan, Tozer, Whalen, Young David—28.

On motion of Mr. Hershfield, Assembly Bill No. 565 was taken up, under suspension of the rules, read a second time and ordered to a third reading.

Mr. Wallworth raised a point of order, stating the bill had no standing before the House and called attention to Rule No. 60, requiring "a vote of the majority of the whole number of members of the House to suspend any rule or order of the House."

The Speaker ruled that the point was well taken and that the bill was not in order.

Mr. Hershfield appealed from the decision of the Chair, and, after some discussion, withdrew his appeal.

Mr. Hershfield moved that a committee of three be appointed by the Speaker to consider the question of a bill to amend the Election Law.

Mr. Tozer moved to amend, that the bill already offered be accepted by unanimous consent and referred to the special committee.

After some discussion, Mr. Tozer withdrew his amendment and Mr. Hershfield withdrew his motion.

Mr. Barrett moved that the rules be suspended for the purpose of considering this one particular bill.

The Chair ruled, as formerly, that the motion was not in order, under Rule No. 60.

Mr. Barrett appealed from the decision of the Chair.

The Speaker put the question, "Shall the decision of the Chair be sustained?"

Upon calling of the roll the decision of the Chair was not sustained, by the following vote:

In the affirmative were—
